TO THE PROFESSION...

The increasing demand for GOOD English songs, and the seeming difficulty in procuring the same, compels us to draw the special attention of the profession generally to the fact that, in addition to our extensive catalogue, we represent the three leading catalogues in Europe. We can offer a variety unsurpassed of compositions by the best composers in the English and French languages on the same date of publication as in Europe. Ask for BOOSEY & COMPANY'S publications, and, if there is any difficulty in obtaining them, please address direct to

BOOSEY & CO., 9 East 17th St., New York.

IN A MUSICAL ATMOSPHERE IS THE PLACE TO TALK PIANOS

That is why we advertise in this programme, and incidentally to talk about ourselves and our facilities for meeting your every desire in the way of pianos.

We have been selling pianos for **Forty Years**, and during that time have so satisfied our patrons that we have grown to be the **Largest Retail Piano House in the World.**

Could we have reached this proud position, had not our Pianos, Methods, and Service been of the Highest Standard?

Our lines are always complete and comprise the leaders only, in reputation, style, variety, tone, touch, quality, and price, while our system is on the characteristic Steinert scale. You wish to purchase, lease, rent, or only to look: you will be accommodated and with every courtesy.

Our stock is headed by the monarch of tone, the peerless, unapproached STEINWAY, from which standard all other pianos are gauged; while the others, Mason & Hamlin, Hardman, Gabler, Jewett, Woodbury, Shoninger, Standard, and Steinertone, all are worthy of your notice. Your inspection is requested.

YOU CAN HAVE A POP CONCERT AT HOME WITH A PIANOLA

The fingers of melody are the keys of a Pianola. Touched by a breath or shaken by a storm, according to the whim of the player and the theme of the composition, the **Pianola** will produce the masterpiece of the genius from the hands of the novice.

A **Pianola** at \$250 is almost a household necessity in these musical days.

With the accompanying rolls every phase of music, from the popular air of the day to the standard works of the old masters, can be played with all the exquisite shadings of the original by one with no previous knowledge of the piano.

If your children are inclined to be musical, you owe it to them to encourage it by purchasing a **Pianola**. Its simplicity will at once appeal to them, and its novelty be a welcome contrast to the hated drudgery of the music lesson. They will eagerly accept it as "playing" and not "working," and their lesson will then become a joy and not a task.

Their lesson can take the form of a composition from a high classic, which the **Pianola** will play for them accurately and repeatedly until the notes and tempo are fixed in their mind, when the **Pianola** can be disconnected from the piano and the music played directly from the keys.

Just step into our warerooms and have the **Pianola** played to you and its beauties explained, or, better, play it yourself.

You will be surprised at your first attempt to produce your favorite air.

There are many imitations of the PIANOLA, but they all fall far short of the mark.

IN A MUSICAL ATMOSPHERE IS THE PLACE TO TALK PIANOS

That is why we advertise in this programme, and incidentally to talk about ourselves and our facilities for meeting your every desire in the way of pianos.

We have been selling pianos for **Forty Years**, and during that time have so satisfied our patrons that we have grown to be the **Largest Retail Piano House in the World.**

Could we have reached this proud position, had not our Pianos, Methods, and Service been of the Highest Standard?

Our lines are always complete and comprise the leaders only, in reputation, style, variety, tone, touch, quality, and price, while our system is on the characteristic Steinert scale. You wish to purchase, lease, rent, or only to look: you will be accommodated and with every courtesy.

Our stock is headed by the monarch of tone, the peerless, unapproached STEINWAY, from which standard all other pianos are gauged; while the others, Mason & Hamlin, Hardman, Gabler, Jewett, Woodbury, Shoninger, Standard, and Steinertone, all are worthy of your notice. Your inspection is requested.

YOU CAN HAVE A POP CONCERT AT HOME WITH A PIANOLA

The fingers of melody are the keys of a Pianola. Touched by a breath or shaken by a storm, according to the whim of the player and the theme of the composition, the Pianola will produce the masterpiece of the genius from the hands of the novice.

A Pianola at \$250 is almost a household necessity in these musical days.

With the accompanying rolls every phase of music, from the popular air of the day to the standard works of the old masters, can be played with all the exquisite shadings of the original by one with no previous knowledge of the piano.

If your children are inclined to be musical, you owe it to them to encourage it by purchasing a Pianola. Its simplicity will at once appeal to them, and its novelty be a welcome contrast to the hated drudgery of the music lesson. They will eagerly accept it as "playing" and not "working," and their lesson will then become a joy and not a task.

Their lesson can take the form of a composition from a high classic, which the Pianola will play for them accurately and repeatedly until the notes and tempo are fixed in their mind, when the Pianola can be disconnected from the piano and the music played directly from the keys.

Just step into our warerooms and have the Pianola played to you and its beauties explained, or, better, play it yourself.

You will be surprised at your first attempt to produce your favorite air.

There are many imitations of the PIANOLA, but they all fall far short of the mark.

Take Elevator to Third Floor.

Could we have reached this proud position, had not our Pianos, Methods, and Service been of the Highest Standard?

Our lines are always complete and comprise the leaders only, in reputation, style, variety, tone, touch, quality, and price, while our system is on the characteristic Steinert scale. You wish to purchase, lease, rent, or only to look: you will be accommodated and with every courtesy.

Our stock is headed by the monarch of tone, the peerless, unapproached STEINWAY, from which standard all other pianos are gauged; while the others, Mason & Hamlin, Hardman, Gabler, Jewett, Woodbury, Shoninger, Standard, and Steinertone, all are worthy of your notice. Your inspection is requested.

YOU CAN HAVE A POP CONCERT AT HOME WITH A PIANOLA

The fingers of melody are the keys of a Pianola. Touched by a breath or shaken by a storm, according to the whim of the player and the theme of the composition, the Pianola will produce the masterpiece of the genius from the hands of the novice.

A Pianola at \$250 is almost a household necessity in these musical days.

With the accompanying rolls every phase of music, from the popular air of the day to the standard works of the old masters, can be played with all the exquisite shadings of the original by one with no previous knowledge of the piano.

If your children are inclined to be musical, you owe it to them to encourage it by purchasing a Pianola. Its simplicity will at once appeal to them, and its novelty be a welcome contrast to the hated drudgery of the music lesson. They will eagerly accept it as "playing" and not "working," and their lesson will then become a joy and not a task.

Their lesson can take the form of a composition from a high classic, which the Pianola will play for them accurately and repeatedly until the notes and tempo are fixed in their mind, when the Pianola can be disconnected from the piano and the music played directly from the keys.

Just step into our warerooms and have the Pianola played to you and its beauties explained, or, better, play it yourself.

You will be surprised at your first attempt to produce your favorite air.

There are many imitations of the PIANOLA, but they all fall far short of the mark.

IN A MUSICAL ATMOSPHERE IS THE PLACE TO TALK PIANOS

That is why we advertise in this programme, and incidentally to talk about ourselves and our facilities for meeting your every desire in the way of pianos.

We have been selling pianos for **Forty Years**, and during that time have so satisfied our patrons that we have grown to be the **Largest Retail Piano House in the World.**

Could we have reached this proud position, had not our Pianos, Methods, and Service been of the Highest Standard?

Our lines are always complete and comprise the leaders only, in reputation, style, variety, tone, touch, quality, and price, while our system is on the characteristic Steinert scale. You wish to purchase, lease, rent, or only to look: you will be accommodated and with every court-sy.

Our stock is headed by the monarch of tone, the peerless, unapproached STEINWAY, from which standard all other pianos are gauged; while the others, Mason & Hamlin, Hardman, Gabler, Jewett, Woodbury, Shoninger, Standard, and Steinertone, all are worthy of your notice. Your inspection is requested.

YOU CAN HAVE A POP CONCERT AT HOME WITH A PIANOLA

The fingers of melody are the keys of a Pianola. Touched by a breath or shaken by a storm, according to the whim of the player and the theme of the composition, the **Pianola** will produce the masterpiece of the genius from the hands of the novice.

A **Pianola** at \$250 is almost a household necessity in these musical days.

With the accompanying rolls every phase of music, from the popular air of the day to the standard works of the old masters, can be played with all the exquisite shadings of the original by one with no previous knowledge of the piano.

If your children are inclined to be musical, you owe it to them to encourage it by purchasing a **Pianola**. Its simplicity will at once appeal to them, and its novelty be a welcome contrast to the hated drudgery of the music lesson. They will eagerly accept it as "playing" and not "working," and their lesson will then become a joy and not a task.

Their lesson can take the form of a composition from a high classic, which the **Pianola** will play for them accurately and repeatedly until the notes and tempo are fixed in their mind, when the **Pianola** can be disconnected from the piano and the music played directly from the keys.

Just step into our warerooms and have the **Pianola** played to you and its beauties explained, or, better, play it yourself.

You will be surprised at your first attempt to produce your favorite air.

IN A MUSICAL ATMOSPHERE IS THE PLACE TO TALK PIANOS

That is why we advertise in this programme, and incidentally to talk about ourselves and our facilities for meeting your every desire in the way of pianos.

We have been selling pianos for **Forty Years**, and during that time have so satisfied our patrons that we have grown to be the **Largest Retail Piano House in the World.**

Could we have reached this proud position, had not our Pianos, Methods, and Service been of the Highest Standard?

Our lines are always complete and comprise the leaders only, in reputation, style, variety, tone, touch, quality, and price, while our system is on the characteristic Steinert scale. You wish to purchase, lease, rent, or only to look: you will be accommodated and with every court-sy.

Our stock is headed by the monarch of tone, the peerless, unapproached STEINWAY, from which standard all other pianos are gauged; while the others, Mason & Hamlin, Hardman, Gabler, Jewett, Woodbury, Shoninger, Standard, and Steinertone, all are worthy of your notice. Your inspection is requested.

YOU CAN HAVE A POP CONCERT AT HOME WITH A PIANOLA

The fingers of melody are the keys of a Pianola. Touched by a breath or shaken by a storm, according to the whim of the player and the theme of the composition, the **Pianola** will produce the masterpiece of the genius from the hands of the novice.

A **Pianola** at \$250 is almost a household necessity in these musical days.

With the accompanying rolls every phase of music, from the popular air of the day to the standard works of the old masters, can be played with all the exquisite shadings of the original by one with no previous knowledge of the piano.

If your children are inclined to be musical, you owe it to them to encourage it by purchasing a **Pianola**. Its simplicity will at once appeal to them, and its novelty be a welcome contrast to the hated drudgery of the music lesson. They will eagerly accept it as "playing" and not "working," and their lesson will then become a joy and not a task.

Their lesson can take the form of a composition from a high classic, which the **Pianola** will play for them accurately and repeatedly until the notes and tempo are fixed in their mind, when the **Pianola** can be disconnected from the piano and the music played directly from the keys.

Just step into our warerooms and have the **Pianola** played to you and its beauties explained, or, better, play it yourself.

You will be surprised at your first attempt to produce your favorite air.

There are many imitations of the PIANOLA, but they all fall far short of the mark.

The only Beer on draught served at these Concerts is the Pabst Brewing Co.'s Milwaukee.

IN A MUSICAL ATMOSPHERE IS THE PLACE TO TALK PIANOS

That is why we advertise in this programme, and incidentally to talk about ourselves and our facilities for meeting your every desire in the way of pianos.

We have been selling pianos for **Forty Years**, and during that time have so satisfied our patrons that we have grown to be the **Largest Retail Piano House in the World.**

Could we have reached this proud position, had not our Pianos, Methods, and Service been of the Highest Standard?

Our lines are always complete and comprise the leaders only, in reputation, style, variety, tone, touch, quality, and price, while our system is on the characteristic Steinert scale. You wish to purchase, lease, rent, or only to look: you will be accommodated and with every courtesy.

Our stock is headed by the monarch of tone, the peerless, unapproached STEINWAY, from which standard all other pianos are gauged; while the others, Mason & Hamlin, Hardman, Gabler, Jewett, Woodbury, Shoninger, Standard, and Steinertone, all are worthy of your notice. Your inspection is requested.

YOU CAN HAVE A POP CONCERT AT HOME WITH A PIANOLA

The fingers of melody are the keys of a Pianola. Touched by a breath or shaken by a storm, according to the whim of the player and the theme of the composition, the Pianola will produce the masterpiece of the genius from the hands of the novice.

A Pianola at \$250 is almost a household necessity in these musical days.

With the accompanying rolls every phase of music, from the popular air of the day to the standard works of the old masters, can be played with all the exquisite shadings of the original by one with no previous knowledge of the piano.

If your children are inclined to be musical, you owe it to them to encourage it by purchasing a Pianola. Its simplicity will at once appeal to them, and its novelty be a welcome contrast to the hated drudgery of the music lesson. They will eagerly accept it as "playing" and not "working," and their lesson will then become a joy and not a task.

Their lesson can take the form of a composition from a high classic, which the Pianola will play for them accurately and repeatedly until the notes and tempo are fixed in their mind, when the Pianola can be disconnected from the piano and the music played directly from the keys.

Just step into our warerooms and have the Pianola played to you and its beauties explained, or, better, play it yourself.

You will be surprised at your first attempt to produce your favorite air.

There are many imitations of the PIANOLA, but they all fall far short of the mark.

IN A MUSICAL ATMOSPHERE IS THE PLACE TO TALK PIANOS

That is why we advertise in this programme, and incidentally to talk about ourselves and our facilities for meeting your desire in the way of pianos.

We have been selling pianos for **Forty Years**, and during that time have so satisfied our patrons that we have grown to be **Largest Retail Piano House in the World.**

Could we have reached this proud position, had not our Pianos, Methods, and Service been of the Highest Standard?

Our lines are always complete and comprise the leaders only, in reputation, style, variety, tone, touch, quality, and price, while our system is on the characteristic Steinert scale. You wish to purchase, lease, rent, or only to look: you will be accommodated with every court-sy.

Our stock is headed by the monarch of tone, the peerless, unapproached STEINWAY, from which standard all other pianos are gauged; while the others, Mason & Hamlin, Hardman, Gabler, Jewett, Woodbury, Shoninger, Standard, and Steinertone, all worthy of your notice. Your inspection is requested.

YOU CAN HAVE A POP CONCERT AT HOME WITH A PIANOLA

The fingers of melody are the keys of a Pianola. Touched by a breath or shaken by a storm, according to the whim of the player and the theme of the composition, the Pianola produce the masterpiece of the genius from the hands of the novice.

A Pianola at \$250 is almost a household necessity in these musical days.

With the accompanying rolls every phase of music, from the popular air of the day to the standard works of the old masters, can be played with all the exquisite shadings of the original one with no previous knowledge of the piano.

If your children are inclined to be musical, you owe it to them to encourage it by purchasing a Pianola. Its simplicity will at once appeal to them, and its novelty be a welcome contrast to the hated drudgery of the music lesson. They will eagerly accept it as "playing" and not "working," and their lesson will then become a joy and not a task.

Their lesson can take the form of a composition from a high classic, which the Pianola will play for them accurately and repeatedly until the notes and tempo are fixed in their mind, while the Pianola can be disconnected from the piano and the music played directly from the keys.

Just step into our warerooms and have the Pianola played to you and its beauties explained, or, better, play it yourself.

You will be surprised at your first attempt to produce your favorite air.

There are many imitations of the PIANOLA, but they all fall far short of the mark.

IN A MUSICAL ATMOSPHERE IS THE PLACE TO TALK PIANOS

That is why we advertise in this programme, and incidentally to talk about ourselves and our facilities for meeting your every desire in the way of pianos.

We have been selling pianos for **Forty Years**, and during that time have so satisfied our patrons that we have grown to be the **Largest Retail Piano House in the World**.

Could we have reached this proud position, had not our Pianos, Methods, and Service been of the Highest Standard?

Our lines are always complete and comprise the leaders only, in reputation, style, variety, tone, touch, quality, and price, while our system is on the characteristic Steinert scale. You wish to purchase, lease, rent, or only to look: you will be accommodated and with every courtesy.

Our stock is headed by the monarch of tone, the peerless, unapproached STEINWAY, from which standard all other pianos are gauged; while the others, Mason & Hamlin, Hardman, Gabler, Jewett, Woodbury, Shoninger, Standard, and Steinertone, all are worthy of your notice. Your inspection is requested.

YOU CAN HAVE A POP CONCERT AT HOME WITH A PIANOLA

The fingers of melody are the keys of a Pianola. Touched by a breath or shaken by a storm, according to the whim of the player and the theme of the composition, the **Pianola** will produce the masterpiece of the genius from the hands of the novice.

A **Pianola** at \$250 is almost a household necessity in these musical days.

With the accompanying rolls every phase of music, from the popular air of the day to the standard works of the old masters, can be played with all the exquisite shadings of the original by one with no previous knowledge of the piano.

If your children are inclined to be musical, you owe it to them to encourage it by purchasing a **Pianola**. Its simplicity will at once appeal to them, and its novelty be a welcome contrast to the hated drudgery of the music lesson. They will eagerly accept it as "playing" and not "working," and their lesson will then become a joy and not a task.

Their lesson can take the form of a composition from a high classic, which the **Pianola** will play for them accurately and repeatedly until the notes and tempo are fixed in their mind, when the **Pianola** can be disconnected from the piano and the music played directly from the keys.

Just step into our warerooms and have the **Pianola** played to you and its beauties explained, or, better, play it yourself.

You will be surprised at your first attempt to produce your favorite air.

There are many imitations of the PIANOLA, but they all fall far short of the mark.

We can offer a variety unsurpassed of compositions by the best composers in the English and French languages on the same date of publication as in Europe. IN A MUSICAL ATMOSPHERE IS THE PLACE TO TALK PIANOS

That is why we advertise in this programme, and incidentally to talk about ourselves and our facilities for meeting your every desire in the way of pianos.

We have been selling pianos for **Forty Years**, and during that time have so satisfied our patrons that we have grown to be the **Largest Retail Piano House in the World**.

Could we have reached this proud position, had not our Pianos, Methods, and Service been of the Highest Standard?

Our lines are always complete and comprise the leaders only, in reputation, style, variety, tone, touch, quality, and price, while our system is on the characteristic Steinert scale. You wish to purchase, lease, rent, or only to look: you will be accommodated and with every courtesy.

Our stock is headed by the monarch of tone, the peerless, unapproached STEINWAY, from which standard all other pianos are gauged; while the others, Mason & Hamlin, Hardman, Gabler, Jewett, Woodbury, Shoninger, Standard, and Steinertone, all are worthy of your notice. Your inspection is requested.

YOU CAN HAVE A POP CONCERT AT HOME WITH A PIANOLA

The fingers of melody are the keys of a Pianola. Touched by a breath or shaken by a storm, according to the whim of the player and the theme of the composition, the **Pianola** will produce the masterpiece of the genius from the hands of the novice.

A **Pianola** at \$250 is almost a household necessity in these musical days.

With the accompanying rolls every phase of music, from the popular air of the day to the standard works of the old masters, can be played with all the exquisite shadings of the original by one with no previous knowledge of the piano.

If your children are inclined to be musical, you owe it to them to encourage it by purchasing a **Pianola**. Its simplicity will at once appeal to them, and its novelty be a welcome contrast to the hated drudgery of the music lesson. They will eagerly accept it as "playing" and not "working," and their lesson will then become a joy and not a task.

Their lesson can take the form of a composition from a high classic, which the **Pianola** will play for them accurately and repeatedly until the notes and tempo are fixed in their mind, when the **Pianola** can be disconnected from the piano and the music played directly from the keys.

Just step into our warerooms and have the **Pianola** played to you and its beauties explained, or, better, play it yourself.

You will be surprised at your first attempt to produce your favorite air.

There are many imitations of the PIANOLA, but they all fall far short of the mark.

BALLARDVALE LITHIA WATER

Ranks pre-eminently first as a standard
water, being 25 per cent. purer than the
so-called purest water on the market
to-day.

We make no claims for Ballardvale
Lithia Water except such as are substan-
tiated by the following high authority:

British Medical Journal
"It is a water rich in Lithia Salts."

London Lancet
"The water is of admirable organic
purity."

Edinburgh Medical Journal
"We highly recommend Ballardvale
Lithia Water."

British Medical Press and Circular
"We recommend it with confidence."

Dublin Journal of Medical Science
"We consider Ballardvale Lithia an

MADE FROM DISTILLED WATER UNDER PERFECT
HYGIENIC CONDITIONS

IN A MUSICAL ATMOSPHERE IS THE PLACE TO TALK PIANOS

That is why we advertise in this programme, and incidentally to talk about ourselves and our facilities for meeting your every desire in the way of pianos.

We have been selling pianos for **Forty Years**, and during that time have so satisfied our patrons that we have grown to be the **Largest Retail Piano House in the World**.

Could we have reached this proud position, had not our Pianos, Methods, and Service been of the Highest Standard?

Our lines are always complete and comprise the leaders only, in reputation, style, variety, tone, touch, quality, and price, while our system is on the characteristic Steinert scale. You wish to purchase, lease, rent, or only to look: you will be accommodated and with every courtesy.

Our stock is headed by the monarch of tone, the peerless, unapproached STEINWAY, from which standard all other pianos are gauged; while the others, Mason & Hamlin, Hardman, Gabler, Jewett, Woodbury, Shoninger, Standard, and Steinertone, all are worthy of your notice. Your inspection is requested.

YOU CAN HAVE A POP CONCERT AT HOME WITH A PIANOLA

The fingers of melody are the keys of a Pianola. Touched by a breath or shaken by a storm, according to the whim of the player and the theme of the composition, the **Pianola** will produce the masterpiece of the genius from the hands of the novice.

A **Pianola** at \$250 is almost a household necessity in these musical days.

With the accompanying rolls every phase of music, from the popular air of the day to the standard works of the old masters, can be played with all the exquisite shadings of the original by one with no previous knowledge of the piano.

If your children are inclined to be musical, you owe it to them to encourage it by purchasing a **Pianola**. Its simplicity will at once appeal to them, and its novelty be a welcome contrast to the hated drudgery of the music lesson. They will eagerly accept it as "playing" and not "working," and their lesson will then become a joy and not a task.

Their lesson can take the form of a composition from a high classic, which the **Pianola** will play for them accurately and repeatedly until the notes and tempo are fixed in their mind, when the **Pianola** can be disconnected from the piano and the music played directly from the keys.

Just step into our warerooms and have the **Pianola** played to you and its beauties explained, or, better, play it yourself.

You will be surprised at your first attempt to produce your favorite air.

There are many imitations of the PIANOLA, but they all fall far short of the mark.

OUR LIST

STEINWAY THE PEERLESS AND UNAPPROACHED.

MASON & HAMLIN, HARDMAN, GABLER, JEWETT, WOODBURY,
SHONINGER, STANDARD, AND

THE STEINERTONE.

CALL IN AND SEE THEM, HEAR THEM PLAYED, PLAY THEM YOUR-
SELF, GET OUR TERMS AND PRICES, AND YOU WILL SURELY BUY.

DID YOU EVER TRY THE PIANOLA?

With it and its wonderful rolls of perforated paper, covering every piece of music, from the highest sonata to the latest melody in ragtime, and all the wide range of music between, can be played without an instant's practice or the drudgery of learning. By its system of interchangeable rolls you can have a

"LIBRARY OF HARMONY."

You hear a popular song, an air from a grand or comic opera, a masterpiece of Paderewski or Bauer, a soul-stirring march from Sousa or an anthem from a celestial theme. Apply to the nearest agency, and it's yours, not only to **hear**, but to **play**; for with the Pianola you can play them with all the varied expressions of the original. This of itself is an additional enjoyment.

Pianos spoil oftener from standing idle than when subjected to the hardest playing. Use it then, use it with a Pianola. Everybody in the house can play it, from the child just large enough to pump the air to the grandsire softly playing to himself some long-remembered favorite air.

As a musical educator, too, the Pianola is a valuable adjunct. It instils the desire to play into those who are disinclined to master the piano, particularly the young, to whom the hated "music lesson" is a thing to be evaded whenever possible. With it the pupil can become familiar with all the shades and tones of his selection, and by repetition on the Pianola fix them in his mind. He can then attempt it on the keys, with surprising success.

Instantly connected or disconnected from the piano, small, compact, and easily moved, it takes but a small space, and even then is an ornament. Don't let your piano stand unused any longer.

BUY A PIANOLA AT \$250.

The cost is not felt, especially when you take advantage of our Easy Payment system, by which you enjoy its use while paying for it.

As an investment you will never regret the money, as it is spent for the whole family. Think it over and call upon us. Ask to see it played, play it yourself: you will be surprised and gratified at your own playing.

READ
THIS

The summer time is the best time in the year to examine our line of pianos.

There is less bustle and activity than in the fall, you have more leisure to look, ask questions, and get familiar with various makers, try each, and make your selections.

Our magnificent warerooms are cool, spacious, well lighted, and a restful place to spend an idle hour inspecting and playing our pianos.

Our line was never so varied and so complete as at present. Every grade and style is on exhibition, headed by the Tone Monarch, the Peerless, Unapproached Steinway, including Mason & Hamlin, Hardman, Gabler, Jewett, Woodbury, Shoninger, Standard, and the Steinertone.

If you do not care to purchase and pay all at once, make your choice, pay a small sum to insure its delivery, then a little at a time until paid for, thus enjoying its use while paying for the piano. This is our Easy Payment System, and is fair and just to all.

While you are inspecting our line of Pianos, don't fail to ask the salesman to show you the Musical Wonder of the Century, the unique **Pianola**, the "instrument that plays an instrument."

With a choice, well-selected assortment of the wonderful perforated paper rolls and a **Pianola**, your house is well equipped to supply the music for the family without having of necessity a musician among them.

Tastes in music widely differ: one prefers classical and thinks all else rubbish, another leans to the sentimental, another the sublime, while still a fourth is only happy when listening to the latest popular ragtime air of the day.

With these rolls and the **Pianola** all can be satisfied and entertained.

Again, one's moods enter largely into one's musical desires at the moment. You are serious, a dreamy nocturne suits your fancy; patriotic, Sousa's "Stars and Stripes" appeals to you; gay, and the latest concert hall ditty coincides with your mood. All of these are at your instant command with the rolls and the **Pianola**.

And you don't have to be a piano player, either, to enjoy all these. It is not necessary to know a note of music. Just attach your **Pianola** to your piano, insert the roll of music desired, and play.

With the **Pianola** ANY KIND of a composition can be played equally well by ANY PERSON, while the music is not in any sense mechanical.

The tone and expression are all there, the wonderful little instrument supplying those essential features automatically.

The price is reasonable, \$250.00, and it need not be all paid at once. It is sold on the easy payment plan, thus giving you the pleasure of its use while paying for it.

The rolls are not expensive either; and, if you do not care to lay in a large quantity, there are literally LIBRARIES of HARMONY, where for a payment of a certain sum per year you can take selections and use them until you desire a change, when they can be substituted for another choice.

During the Intermission

READ
THIS

The summer time is the best time in the year to examine our line of pianos.

There is less bustle and activity than in the fall, you have more leisure to look, ask questions, and get familiar with various makers, try each, and make your selections.

Our magnificent warerooms are cool, spacious, well lighted, and a restful place to spend an idle hour inspecting and playing our pianos.

Our line was never so varied and so complete as at present. Every grade and style is on exhibition, headed by the Tone Monarch, the Peerless, Unapproached Steinway, including Mason & Hamlin, Hardman, Gabler, Jewett, Woodbury, Shoninger, Standard, and the Steinertone.

If you do not care to purchase and pay all at once, make your choice, pay a small sum to insure its delivery, then a little at a time until paid for, thus enjoying its use while paying for the piano. This is our Easy Payment System, and is fair and just to all.

While you are inspecting our line of Pianos, don't fail to ask the salesman to show you the Musical Wonder of the Century, the unique **Pianola**, the "instrument that plays an instrument."

With a choice, well-selected assortment of the wonderful perforated paper rolls and a **Pianola**, your house is well equipped to supply the music for the family without having of necessity a musician among them.

Tastes in music widely differ: one prefers classical and thinks all else rubbish, another leans to the sentimental, another the sublime, while still a fourth is only happy when listening to the latest popular ragtime air of the day.

With these rolls and the **Pianola** all can be satisfied and entertained.

Again, one's moods enter largely into one's musical desires at the moment. You are serious, a dreamy nocturne suits your fancy; patriotic, Sousa's "Stars and Stripes" appeals to you; gay, and the latest concert hall ditty coincides with your mood. All of these are at your instant command with the rolls and the **Pianola**.

And you don't have to be a piano player, either, to enjoy all these. It is not necessary to know a note of music. Just attach your **Pianola** to your piano, insert the roll of music desired, and play. With the **Pianola** ANY KIND of a composition can be played equally well by ANY PERSON, while the music is not in any sense mechanical.

The tone and expression are all there, the wonderful little instrument supplying those essential features automatically.

The price is reasonable, \$250.00, and it need not be all paid at once. It is sold on the easy payment plan, thus giving you the pleasure of its use while paying for it.

The rolls are not expensive either; and, if you do not care to lay in a large quantity, there are literally LIBRARIES of HARMONY, where for a payment of a certain sum per year you can take selections and use them until you desire a change, when they can be substituted for another choice.

IN A MUSICAL ATMOSPHERE IS THE PLACE TO TALK PIANOS

That is why we advertise in this programme, and incidentally to talk about ourselves and our facilities for meeting your every desire in the way of pianos.

We have been selling pianos for **Forty Years**, and during that time have so satisfied our patrons that we have grown to be the **Largest Retail Piano House in the World.**

Could we have reached this proud position, had not our Pianos, Methods, and Service been of the Highest Standard?

Our lines are always complete and comprise the leaders only, in reputation, style, variety, tone, touch, quality, and price, which our system is on the characteristic Steinert scale. You wish to purchase, lease, rent, or only to look: you will be accommodated and with every courtesy.

Our stock is headed by the monarch of tone, the peerless, unapproached STEINWAY, from which standard all other pianos are gauged; while the others, Mason & Hamlin, Hardman, Gabler, Jewett, Woodbury, Shoninger, Standard, and Steinertone, all are worthy of your notice. Your inspection is requested.

YOU CAN HAVE A POP CONCERT AT HOME WITH A PIANOLA

The fingers of melody are the keys of a Pianola. Touched by a breath or shaken by a storm, according to the whim of the player and the theme of the composition, the Pianola will produce the masterpiece of the genius from the hands of the novice.

A Pianola at \$250 is almost a household necessity in these musical days.

With the accompanying rolls every phase of music, from the popular air of the day to the standard works of the old masters, can be played with all the exquisite shadings of the original by one with no previous knowledge of the piano.

If your children are inclined to be musical, you owe it to them to encourage it by purchasing a Pianola. Its simplicity will at once appeal to them, and its novelty be a welcome contrast to the hated drudgery of the music lesson. They will eagerly accept it as "playing" and not "working," and their lesson will then become a joy and not a task.

Their lesson can take the form of a composition from a high classic, which the Pianola will play for them accurately and repeatedly until the notes and tempo are fixed in their mind, when the Pianola can be disconnected from the piano and the music played directly from the keys.

Just step into our warerooms and have the Pianola played to you and its beauties explained, or, better, play it yourself.

You will be surprised at your first attempt to produce your favorite air.

There are many imitations of the PIANOLA, but they all fall far short of the mark.

IN A MUSICAL ATMOSPHERE IS THE PLACE TO TALK PIANOS

That is why we advertise in this programme, and incidentally to talk about ourselves and our facilities for meeting your every desire in the way of pianos.

We have been selling pianos for **Forty Years**, and during that time have so satisfied our patrons that we have grown to be the **Largest Retail Piano House in the World.**

Could we have reached this proud position, had not our Pianos, Methods, and Service been of the Highest Standard?

Our lines are always complete and comprise the leaders only, in reputation, style, variety, tone, touch, quality, and price, while our system is on the characteristic Steinert scale. You wish to purchase, lease, rent, or only to look: you will be accommodated and with every court sy.

Our stock is headed by the monarch of tone, the peerless, unapproached STEINWAY, from which standard all other pianos are gauged; while the others, Mason & Hamlin, Hardman, Gabler, Jewett, Woodbury, Shoninger, Standard, and Steinertone, all are worthy of your notice. Your inspection is requested.

YOU CAN HAVE A POP CONCERT AT HOME WITH A PIANOLA

The fingers of melody are the keys of a Pianola. Touched by a breath or shaken by a storm, according to the whim of the player and the theme of the composition, the **Pianola** will produce the masterpiece of the genius from the hands of the novice.

A **Pianola** at \$250 is almost a household necessity in these musical days.

With the accompanying rolls every phase of music, from the popular air of the day to the standard works of the old masters, can be played with all the exquisite shadings of the original by one with no previous knowledge of the piano.

If your children are inclined to be musical, you owe it to them to encourage it by purchasing a **Pianola**. Its simplicity will at once appeal to them, and its novelty be a welcome contrast to the hated drudgery of the music lesson. They will eagerly accept it as "playing" and not "working," and their lesson will then become a joy and not a task.

Their lesson can take the form of a composition from a high classic, which the **Pianola** will play for them accurately and repeatedly until the notes and tempo are fixed in their mind, when the **Pianola** can be disconnected from the piano and the music played directly from the keys.

Just step into our warerooms and have the **Pianola** played to you and its beauties explained, or, better, play it yourself.

You will be surprised at your first attempt to produce your favorite air.

There are many imitations of the PIANOLA, but they all fall far short of the mark.

CALL IN AND SEE THEM, HEAR THEM PLAYED, PLAY THEM YOUR-

DID YOU EVER TRY THE PIANOLA?

With it and its wonderful rolls of perforated paper, covering every piece of music, from the highest sonata to the latest melody in ragtime, and all the wide range of music between, can be played without an instant's practice or the drudgery of learning. By its system of interchangeable rolls you can have a

"LIBRARY OF HARMONY."

You hear a popular song, an air from a grand or comic opera, a masterpiece of Paderewski or Bauer, a soul-stirring march from Sousa or an anthem from a celestial theme. Apply to the nearest agency, and it's yours, not only to **hear**, but to **play**; for with the Pianola you can play them with all the varied expressions of the original. This of itself is an additional enjoyment.

Pianos spoil oftener from standing idle than when subjected to the hardest playing. Use it then, use it with a Pianola. Everybody in the house can play it, from the child just large enough to pump the air to the grandsire softly playing to himself some long-remembered favorite air.

As a musical educator, too, the Pianola is a valuable adjunct. It instills the desire to play into those who are disinclined to master the piano, particularly the young, to whom the hated "music lesson" is a thing to be evaded whenever possible. With it the pupil can become familiar with all the shades and tones of his selection, and by repetition on the Pianola fix them in his mind. He can then attempt it on the keys, with surprising success.

Instantly connected or disconnected from the piano, small, compact, and easily moved, it takes but a small space, and even then is an ornament. Don't let your piano stand unused any longer.

BUY A PIANOLA AT \$250.

The cost is not felt, especially when you take advantage of our Easy Payment system, by which you enjoy its use while paying for it.

As an investment you will never regret the money, as it is spent for the whole family. Think it over and call upon us. Ask to see it played, play it yourself: you will be surprised and gratified at your own playing.

TO THE PROFESSION...

The increasing demand for GOOD English songs, and the seeming difficulty in procuring the same, compels us to draw the special attention of the profession generally to the fact that, in addition to our extensive catalogue, we represent the three leading catalogues in Europe. We can offer a variety unsurpassed of compositions by the best composers in the English and French languages on the same date of publication as in Europe. Ask for BOOSEY & COMPANY'S publications, and, if there is any difficulty in obtaining them, please address direct to

DID YOU EVER TRY THE PIANOLA?

With it and its wonderful rolls of perforated paper, covering every piece of music, from the highest sonata to the latest melody in ragtime, and all the wide range of music between, can be played without an instant's practice or the drudgery of learning. By its system of interchangeable rolls you can have a

"LIBRARY OF HARMONY."

You hear a popular song, an air from a grand or comic opera, a masterpiece of Paderewski or Bauer, a soul-stirring march from Sousa or an anthem from a celestial theme. Apply to the nearest agency, and it's yours, not only to **hear**, but to **play**; for with the Pianola you can play them with all the varied expressions of the original. This of itself is an additional enjoyment.

Pianos spoil oftener from standing idle than when subjected to the hardest playing. Use it then, use it with a Pianola. Everybody in the house can play it, from the child just large enough to pump the air to the grandsire softly playing to himself some long-remembered favorite air.

As a musical educator, too, the Pianola is a valuable adjunct. It instills the desire to play into those who are disinclined to master the piano, particularly the young, to whom the hated "music lesson" is a thing to be evaded whenever possible. With it the pupil can become familiar with all the shades and tones of his selection, and by repetition on the Pianola fix them in his mind. He can then attempt it on the keys, with surprising success.

Instantly connected or disconnected from the piano, small, compact, and easily moved, it takes but a small space, and even then is an ornament. Don't let your piano stand unused any longer.

BUY A PIANOLA AT \$250.

The cost is not felt, especially when you take advantage of our Easy Payment system, by which you enjoy its use while paying for it.

As an investment you will never regret the money, as it is spent for the whole family. Think it over and call upon us. Ask to see it played, play it yourself: you will be surprised and gratified at your own playing.

FOR 100 YEARS

Authentic records exist of cures from the healing waters of the Ballardvale Lithia Spring. Tradition goes back another hundred years, when the aborigines drank the healing waters of the "big spring."

BALLARDVALE LITHIA WATER

Has been for a century a standard cure for all ailments of the stomach, liver, kidneys, and bladder. Its organic purity and tastelessness make it possible to drink it in unlimited quantities,—highly beneficial to the sick, palatable and refreshing to the well. As a table water it is without an equal.

During the Intermission

READ
THIS

The summer time is the best time in the year to examine our line of pianos.

There is less bustle and activity than in the fall, you have more leisure to look, ask questions, and get familiar with various makers, try each, and make your selections.

Our magnificent warerooms are cool, spacious, well lighted, and a restful place to spend an idle hour inspecting and playing our pianos.

Our line was never so varied and so complete as at present. Every grade and style is on exhibition, headed by the Tone Monarch, the Peerless, Unapproached Steinway, including Mason & Hamlin, Hardman, Gabler, Jewett, Woodbury, Shoninger, Standard, and the Steinertone.

If you do not care to purchase and pay all at once, make your choice, pay a small sum to insure its delivery, then a little at a time until paid for, thus enjoying its use while paying for the piano. This is our Easy Payment System, and is fair and just to all.

While you are inspecting our line of Pianos, don't fail to ask the salesman to show you the Musical Wonder of the Century, the unique **Pianola**, the "instrument that plays an instrument."

With a choice, well-selected assortment of the wonderful perforated paper rolls and a **Pianola**, your house is well equipped to supply the music for the family without having of necessity a musician among them.

Tastes in music widely differ: one prefers classical and thinks all else rubbish, another leans to the sentimental, another the sublime, while still a fourth is only happy when listening to the latest popular ragtime air of the day.

With these rolls and the **Pianola** all can be satisfied and entertained.

Again, one's moods enter largely into one's musical desires at the moment. You are serious, a dreamy nocturne suits your fancy; patriotic, Sousa's "Stars and Stripes" appeals to you; gay, and the latest concert hall ditty coincides with your mood. All of these are at your instant command with the rolls and the **Pianola**.

And you don't have to be a piano player, either, to enjoy all these. It is not necessary to know a note of music. Just attach your **Pianola** to your piano, insert the roll of music desired, and play.

With the **Pianola** ANY KIND of a composition can be played equally well by ANY PERSON, while the music is not in any sense mechanical.

The tone and expression are all there, the wonderful little instrument supplying those essential features automatically.

The price is reasonable, \$250.00, and it need not be all paid at once. It is sold on the easy payment plan, thus giving you the pleasure of its use while paying for it.

The rolls are not expensive either; and, if you do not care to lay in a large quantity, there are literally LIBRARIES of HARMONY, where for a payment of a certain sum per year you can take selections and use them until you desire a change, when they can be substituted for another choice.

FOR 100 YEARS

Authentic records exist of cures from the healing waters of the Ballardvale Lithia Spring. Tradition goes back another hundred years, when the aborigines drank the healing waters of the "big spring."

BALLARDVALE LITHIA WATER

Has been for a century a standard cure for all ailments of the stomach, liver, kidneys, and bladder. Its organic purity and tastelessness make it possible to drink it in unlimited quantities,—highly beneficial to the sick, palatable and refreshing to the well. As a table water it is without an equal.

READ
THIS

The summer time is the best time in the year to examine our line of pianos.

There is less bustle and activity than in the fall, you have more leisure to look, ask questions, and get familiar with various makers, try each, and make your selections.

Our magnificent warerooms are cool, spacious, well lighted, and a restful place to spend an idle hour inspecting and playing our pianos.

Our line was never so varied and so complete as at present. Every grade and style is on exhibition, headed by the Tone Monarch, the Peerless, Unapproached Steinway, including Mason & Hamlin, Hardman, Gabler, Jewett, Woodbury, Shoninger, Standard, and the Steinertone.

If you do not care to purchase and pay all at once, make your choice, pay a small sum to insure its delivery, then a little at a time until paid for, thus enjoying its use while paying for the piano. This is our Easy Payment System, and is fair and just to all.

While you are inspecting our line of Pianos, don't fail to ask the salesman to show you the Musical Wonder of the Century, the unique **Pianola**, the "instrument that plays an instrument."

With a choice, well-selected assortment of the wonderful perforated paper rolls and a **Pianola**, your house is well equipped to supply the music for the family without having of necessity a musician among them.

Tastes in music widely differ: one prefers classical and thinks all else rubbish, another leans to the sentimental, another the sublime, while still a fourth is only happy when listening to the latest popular ragtime air of the day.

With these rolls and the **Pianola** all can be satisfied and entertained.

Again, one's moods enter largely into one's musical desires at the moment. You are serious, a dreamy nocturne suits your fancy; patriotic, Sousa's "Stars and Stripes" appeals to you; gay, and the latest concert hall ditty coincides with your mood. All of these are at your instant command with the rolls and the **Pianola**.

And you don't have to be a piano player, either, to enjoy all these. It is not necessary to know a note of music. Just attach your **Pianola** to your piano, insert the roll of music desired, and play.

With the **Pianola** ANY KIND of a composition can be played equally well by ANY PERSON, while the music is not in any sense mechanical.

The tone and expression are all there, the wonderful little instrument supplying those essential features automatically.

The price is reasonable, \$250.00, and it need not be all paid at once. It is sold on the easy payment plan, thus giving you the pleasure of its use while paying for it.

The rolls are not expensive either; and, if you do not care to lay in a large quantity, there are literally LIBRARIES of HARMONY, where for a payment of a certain sum per year you can take selections and use them until you desire a change, when they can be substituted for another choice.

FOR 100 YEARS

Authentic records exist of cures from the healing waters of the Ballardvale Lithia Spring. Tradition goes back another hundred years, when the aborigines drank the healing waters of the "big spring."

BALLARDVALE LITHIA WATER

Has been for a century a standard cure for all ailments of the stomach, liver, kidneys, and bladder. Its organic purity and tastelessness make it possible to drink it in unlimited quantities,—highly beneficial to the sick, palatable and refreshing to the well. As a table water it is without an equal.

IN A MUSICAL ATMOSPHERE IS THE PLACE TO TALK PIANOS

That is why we advertise in this programme, and incidentally to talk about ourselves and our facilities for meeting your every desire in the way of pianos.

We have been selling pianos for **Forty Years**, and during that time have so satisfied our patrons that we have grown to be the **Largest Retail Piano House in the World.**

Could we have reached this proud position, had not our Pianos, Methods, and Service been of the Highest Standard?

Our lines are always complete and comprise the leaders only, in reputation, style, variety, tone, touch, quality, and price, while our system is on the characteristic Steinert scale. You wish to purchase, lease, rent, or only to look: you will be accommodated and with every courtesy.

Our stock is headed by the monarch of tone, the peerless, unapproached STEINWAY, from which standard all other pianos are gauged; while the others, Mason & Hamlin, Hardman, Gabler, Jewett, Woodbury, Shoninger, Standard, and Steinertone, all are worthy of your notice. Your inspection is requested.

YOU CAN HAVE A POP CONCERT AT HOME WITH A PIANOLA

The fingers of melody are the keys of a Pianola. Touched by a breath or shaken by a storm, according to the whim of the player and the theme of the composition, the Pianola will produce the masterpiece of the genius from the hands of the novice.

A Pianola at \$250 is almost a household necessity in these musical days.

With the accompanying rolls every phase of music, from the popular air of the day to the standard works of the old masters, can be played with all the exquisite shadings of the original by one with no previous knowledge of the piano.

If your children are inclined to be musical, you owe it to them to encourage it by purchasing a Pianola. Its simplicity will at once appeal to them, and its novelty be a welcome contrast to the hated drudgery of the music lesson. They will eagerly accept it as "playing" and not "working," and their lesson will then become a joy and not a task.

Their lesson can take the form of a composition from a high classic, which the Pianola will play for them accurately and repeatedly until the notes and tempo are fixed in their mind, when the Pianola can be disconnected from the piano and the music played directly from the keys.

Just step into our warerooms and have the Pianola played to you and its beauties explained, or, better, play it yourself.

You will be surprised at your first attempt to produce your favorite air.

There are many imitations of the PIANOLA, but they all fall far short of the mark.

TO THE PROFESSION...

The increasing demand for GOOD English songs, and the seeming difficulty in procuring the same, compels us to draw the special attention of the profession generally to the fact that, in addition to our extensive catalogue, we represent the three leading catalogues in Europe. We can offer a variety unsurpassed of compositions by the best composers in the English and French languages on the same date of publication as in Europe. FOR 100 YEARS

Authentic records exist of cures from the healing waters of the Ballardvale Lithia Spring. Tradition goes back another hundred years, when the aborigines drank the healing waters of the "big spring."

BALLARDVALE LITHIA WATER

Has been for a century a standard cure for all ailments of the stomach, liver, kidneys, and bladder. Its organic purity and tastelessness make it possible to drink it in unlimited quantities,—highly beneficial to the sick, palatable and refreshing to the well. As a table water it is without an equal.

IN A MUSICAL ATMOSPHERE IS THE PLACE TO TALK PIANOS

That is why we advertise in this programme, and incidentally to talk about ourselves and our facilities for meeting your every desire in the way of pianos.

We have been selling pianos for **Forty Years**, and during that time have so satisfied our patrons that we have grown to be the **Largest Retail Piano House in the World.**

Could we have reached this proud position, had not our Pianos, Methods, and Service been of the Highest Standard?

Our lines are always complete and comprise the leaders only, in reputation, style, variety, tone, touch, quality, and price, while our system is on the characteristic Steinert scale. You wish to purchase, lease, rent, or only to look: you will be accommodated and with every courtesy.

Our stock is headed by the monarch of tone, the peerless, unapproached STEINWAY, from which standard all other pianos are gauged; while the others, Mason & Hamlin, Hardman, Gabler, Jewett, Woodbury, Shoninger, Standard, and Steinertone, all are worthy of your notice. Your inspection is requested.

YOU CAN HAVE A POP CONCERT AT HOME WITH A PIANOLA

The fingers of melody are the keys of a Pianola. Touched by a breath or shaken by a storm, according to the whim of the player and the theme of the composition, the Pianola will produce the masterpiece of the genius from the hands of the novice.

A Pianola at \$250 is almost a household necessity in these musical days.

With the accompanying rolls every phase of music, from the popular air of the day to the standard works of the old masters, can be played with all the exquisite shadings of the original by one with no previous knowledge of the piano.

If your children are inclined to be musical, you owe it to them to encourage it by purchasing a Pianola. Its simplicity will at once appeal to them, and its novelty be a welcome contrast to the hated drudgery of the music lesson. They will eagerly accept it as "playing" and not "working," and their lesson will then become a joy and not a task.

Their lesson can take the form of a composition from a high classic, which the Pianola will play for them accurately and repeatedly until the notes and tempo are fixed in their mind, when the Pianola can be disconnected from the piano and the music played directly from the keys.

Just step into our warerooms and have the Pianola played to you and its beauties explained, or, better, play it yourself.

You will be surprised at your first attempt to produce your favorite air.

There are many imitations of the PIANOLA, but they all fall far short of the mark.

FOR 100 YEARS

Authentic records exist of cures from the healing waters of the Ballardvale Lithia Spring. Tradition goes back another hundred years, when the aborigines drank the healing waters of the "big spring."

BALLARDVALE LITHIA WATER

Has been for a century a standard cure for all ailments of the stomach, liver, kidneys, and bladder. Its organic purity and tastelessness make it possible to drink it in unlimited quantities,—highly beneficial to the sick, palatable and refreshing to the well. As a table water it is without an equal.

IN A MUSICAL ATMOSPHERE IS THE PLACE TO TALK PIANOS

That is why we advertise in this programme, and incidentally to talk about ourselves and our facilities for meeting your every desire in the way of pianos.

We have been selling pianos for **Forty Years**, and during that time have so satisfied our patrons that we have grown to be the **Largest Retail Piano House in the World.**

Could we have reached this proud position, had not our Pianos, Methods, and Service been of the Highest Standard?

Our lines are always complete and comprise the leaders only, in reputation, style, variety, tone, touch, quality, and price, while our system is on the characteristic Steinert scale. You wish to purchase, lease, rent, or only to look: you will be accommodated and with every courtesy.

Our stock is headed by the monarch of tone, the peerless, unapproached STEINWAY, from which standard all other pianos are gauged; while the others, Mason & Hamlin, Hardman, Gabler, Jewett, Woodbury, Shoninger, Standard, and Steinertone, all are worthy of your notice. Your inspection is requested.

YOU CAN HAVE A POP CONCERT AT HOME WITH A PIANOLA

The fingers of melody are the keys of a Pianola. Touched by a breath or shaken by a storm, according to the whim of the player and the theme of the composition, the Pianola will produce the masterpiece of the genius from the hands of the novice.

A Pianola at \$250 is almost a household necessity in these musical days.

With the accompanying rolls every phase of music, from the popular air of the day to the standard works of the old masters, can be played with all the exquisite shadings of the original by one with no previous knowledge of the piano.

If your children are inclined to be musical, you owe it to them to encourage it by purchasing a Pianola. Its simplicity will at once appeal to them, and its novelty be a welcome contrast to the hated drudgery of the music lesson. They will eagerly accept it as "playing" and not "working," and their lesson will then become a joy and not a task.

Their lesson can take the form of a composition from a high classic, which the Pianola will play for them accurately and repeatedly until the notes and tempo are fixed in their mind, when the Pianola can be disconnected from the piano and the music played directly from the keys.

Just step into our warerooms and have the Pianola played to you and its beauties explained, or, better, play it yourself.

You will be surprised at your first attempt to produce your favorite air.

There are many imitations of the PIANOLA, but they all fall far short of the mark.

FOR 100 YEARS

Authentic records exist of cures from the healing waters of the Ballardvale Lithia Spring. Tradition goes back another hundred years, when the aborigines drank the healing waters of the "big spring."

BALLARDVALE LITHIA WATER

Has been for a century a standard cure for all ailments of the stomach, liver, kidneys, and bladder. Its organic purity and tastelessness make it possible to drink it in unlimited quantities,—highly beneficial to the sick, palatable and refreshing to the well. As a table water it is without an equal.

THE STEINERTONE.

CALL IN AND SEE THEM, HEAR THEM PLAYED, PLAY THEM YOUR-
SELF, GET OUR TERMS AND PRICES, AND YOU WILL SURELY BUY.

DID YOU EVER TRY THE PIANOLA?

With it and its wonderful rolls of perforated paper, covering every piece of music, from the highest sonata to the latest melody in ragtime, and all the wide range of music between, can be played without an instant's practice or the drudgery of learning. By its system of interchangeable rolls you can have a

"LIBRARY OF HARMONY."

You hear a popular song, an air from a grand or comic opera, a masterpiece of Paderewski or Bauer, a soul-stirring march from Sousa or an anthem from a celestial theme. Apply to the nearest agency, and it's yours, not only to **hear**, but to **play**; for with the Pianola you can play them with all the varied expressions of the original. This of itself is an additional enjoyment.

Pianos spoil oftener from standing idle than when subjected to the hardest playing. Use it then, use it with a Pianola. Everybody in the house can play it, from the child just large enough to pump the air to the grandsire softly playing to himself some long-remembered favorite air.

As a musical educator, too, the Pianola is a valuable adjunct. It instills the desire to play into those who are disinclined to master the piano, particularly the young, to whom the hated "music lesson" is a thing to be evaded whenever possible. With it the pupil can become familiar with all the shades and tones of his selection, and by repetition on the Pianola fix them in his mind. He can then attempt it on the keys, with surprising success.

Instantly connected or disconnected from the piano, small, compact, and easily moved, it takes but a small space, and even then is an ornament. Don't let your piano stand unused any longer.

BUY A PIANOLA AT \$250.

The cost is not felt, especially when you take advantage of our Easy Payment system, by which you enjoy its use while paying for it.

As an investment you will never regret the money, as it is spent for the whole family. Think it over and call upon us. Ask to see it played, play it yourself: you will be surprised and gratified at your own playing.

ITS ORGANIC PURITY

MAKES BALLARDALE LITHIA

The most acceptable table water. It is the purest water ever submitted to the test set by the French government. This purity makes it odorless, colorless, and tasteless, so that one may use it in unlimited quantities with never a reminder by color, taste, or smell of its medicinal properties.

IT CONTAINS MORE LITHIA

Than any other water on the market. 87 per cent. of its mineral contents consists of salts of lithia. There is hardly a man who would not be highly benefited in health by its constant use. Those suffering from Gout, Gravel, Diabetes, Rheumatism, etc., find in it immediate and permanent relief.

READ
THIS

The summer time is the best time in the year to examine our line of pianos.

There is less bustle and activity than in the fall, you have more leisure to look, ask questions, and get familiar with various makers, try each, and make your selections.

Our magnificent warerooms are cool, spacious, well lighted, and a restful place to spend an idle hour inspecting and playing our pianos.

Our line was never so varied and so complete as at present. Every grade and style is on exhibition, headed by the Tone Monarch, the Peerless, Unapproached Steinway, including Mason & Hamlin, Hardman, Gabler, Jewett, Woodbury, Shoninger, Standard, and the Steinertone.

If you do not care to purchase and pay all at once, make your choice, pay a small sum to insure its delivery, then a little at a time until paid for, thus enjoying its use while paying for the piano. This is our Easy Payment System, and is fair and just to all.

While you are inspecting our line of Pianos, don't fail to ask the salesman to show you the Musical Wonder of the Century, the unique **Pianola**, the "instrument that plays an instrument."

With a choice, well-selected assortment of the wonderful perforated paper rolls and a **Pianola**, your house is well equipped to supply the music for the family without having of necessity a musician among them.

Tastes in music widely differ: one prefers classical and thinks all else rubbish, another leans to the sentimental, another the sublime, while still a fourth is only happy when listening to the latest popular ragtime air of the day.

With these rolls and the **Pianola** all can be satisfied and entertained.

Again, one's moods enter largely into one's musical desires at the moment. You are serious, a dreamy nocturne suits your fancy; patriotic, Sousa's "Stars and Stripes" appeals to you; gay and the latest concert hall ditty coincides with your mood. All of these are at your instant command with the rolls and the **Pianola**.

And you don't have to be a piano player, either, to enjoy all these. It is not necessary to know a note of music. Just attach your **Pianola** to your piano, insert the roll of music desired, and play

With the **Pianola** ANY KIND of a composition can be played equally well by ANY PERSON, while the music is not in any sense mechanical.

The tone and expression are all there, the wonderful little instrument supplying those essential features automatically.

The price is reasonable, \$250.00, and it need not be all paid at once. It is sold on the easy payment plan, thus giving you the pleasure of its use while paying for it.

The rolls are not expensive either; and, if you do not care to lay in a large quantity, there are literally LIBRARIES of HARMONY, where for a payment of a certain sum per year you can take selections and use them until you desire a change, when they can be substituted for another choice.

ITS ORGANIC PURITY

MAKES BALLARDALE LITHIA

The most acceptable table water. It is the purest water ever submitted to the test set by the French government. This purity makes it odorless, colorless, and tasteless, so that one may use it in unlimited quantities with never a reminder by color, taste, or smell of its medicinal properties.

IT CONTAINS MORE LITHIA

Than any other water on the market. 87 per cent. of its mineral contents consists of salts of lithia. There is hardly a man who would not be highly benefited in health by its constant use. Those suffering from Gout, Gravel, Diabetes, Rheumatism, etc., find in it immediate and permanent relief.

TO THE PROFESSION...

The increasing demand for GOOD English songs, and the seeming difficulty in procuring the same, compels us to draw the special attention of the profession generally to the fact that, in addition to our extensive catalogue, we represent the three leading catalogues in Europe. We can offer a variety unsurpassed of compositions by the best composers in the English and French languages on the same date of publication as in Europe. During the Intermission

READ
THIS

The summer time is the best time in the year to examine our line of pianos.

There is less bustle and activity than in the fall, you have more leisure to look, ask questions, and get familiar with various makers, try each, and make your selections.

Our magnificent warerooms are cool, spacious, well lighted, and a restful place to spend an idle hour inspecting and playing our pianos.

Our line was never so varied and so complete as at present. Every grade and style is on exhibition, headed by the Tone Monarch, the Peerless, Unapproached Steinway, including Mason & Hamlin, Hardman, Gabler, Jewett, Woodbury, Shoninger, Standard, and the Steinertone.

If you do not care to purchase and pay all at once, make your choice, pay a small sum to insure its delivery, then a little at a time until paid for, thus enjoying its use while paying for the piano. This is our Easy Payment System, and is fair and just to all.

While you are inspecting our line of Pianos, don't fail to ask the salesman to show you the Musical Wonder of the Century, the unique **Pianola**, the "instrument that plays an instrument."

With a choice, well-selected assortment of the wonderful perforated paper rolls and a **Pianola**, your house is well equipped to supply the music for the family without having of necessity a musician among them.

Tastes in music widely differ: one prefers classical and thinks all else rubbish, another leans to the sentimental, another the sublime, while still a fourth is only happy when listening to the latest popular ragtime air of the day.

With these rolls and the **Pianola** all can be satisfied and entertained.

Again, one's moods enter largely into one's musical desires at the moment. You are serious, a dreamy nocturne suits your fancy; patriotic, Sousa's "Stars and Stripes" appeals to you; gay and the latest concert hall ditty coincides with your mood. All of these are at your instant command with the rolls and the **Pianola**.

And you don't have to be a piano player, either, to enjoy all these. It is not necessary to know a note of music. Just attach your **Pianola** to your piano, insert the roll of music desired, and play

With the **Pianola** ANY KIND of a composition can be played equally well by ANY PERSON, while the music is not in any sense mechanical.

The tone and expression are all there, the wonderful little instrument supplying those essential features automatically.

The price is reasonable, \$250.00, and it need not be all paid at once. It is sold on the easy payment plan, thus giving you the pleasure of its use while paying for it.

The rolls are not expensive either; and, if you do not care to lay in a large quantity, there are literally LIBRARIES of HARMONY, where for a payment of a certain sum per year you can take selections and use them until you desire a change, when they can be substituted for another choice.

ITS ORGANIC PURITY

MAKES BALLARDALE LITHIA

The most acceptable table water. It is the purest water ever submitted to the test set by the French government. This purity makes it odorless, colorless, and tasteless, so that one may use it in unlimited quantities with never a reminder by color, taste, or smell of its medicinal properties.

IT CONTAINS MORE LITHIA

Than any other water on the market. 87 per cent. of its mineral contents consists of salts of lithia. There is hardly a man who would not be highly benefited in health by its constant use. Those suffering from Gout, Gravel, Diabetes, Rheumatism, etc., find in it immediate and permanent relief.

IN A MUSICAL ATMOSPHERE IS THE PLACE TO TALK PIANOS

That is why we advertise in this programme, and incidentally to talk about ourselves and our facilities for meeting your every desire in the way of pianos.

We have been selling pianos for **Forty Years**, and during that time have so satisfied our patrons that we have grown to be the **Largest Retail Piano House in the World**.

Could we have reached this proud position, had not our Pianos, Methods, and Service been of the Highest Standard?

Our lines are always complete and comprise the leaders only, in reputation, style, variety, tone, touch, quality, and price, while our system is on the characteristic Steinert scale. You wish to purchase, lease, rent, or only to look: you will be accommodated and with every courtesy.

Our stock is headed by the monarch of tone, the peerless, unapproached STEINWAY, from which standard all other pianos are gauged; while the others, Mason & Hamlin, Hardman, Gabler, Jewett, Woodbury, Shoninger, Standard, and Steinertone, all are worthy of your notice. Your inspection is requested.

**YOU
CAN
HAVE**

A POP CONCERT

**AT HOME
WITH**

A PIANOLA

The fingers of melody are the keys of a Pianola. Touched by a breath or shaken by a storm, according to the whim of the player and the theme of the composition, the **Pianola** will produce the masterpiece of the genius from the hands of the novice.

A **Pianola** at \$250 is almost a household necessity in these musical days.

With the accompanying rolls every phase of music, from the popular air of the day to the standard works of the old masters, can be played with all the exquisite shadings of the original by one with no previous knowledge of the piano.

If your children are inclined to be musical, you owe it to them to encourage it by purchasing a **Pianola**. Its simplicity will at once appeal to them, and its novelty be a welcome contrast to the hated drudgery of the music lesson. They will eagerly accept it as "playing" and not "working," and their lesson will then become a joy and not a task.

Their lesson can take the form of a composition from a high classic, which the **Pianola** will play for them accurately and repeatedly until the notes and tempo are fixed in their mind, when the **Pianola** can be disconnected from the piano and the music played directly from the keys.

Just step into our warerooms and have the **Pianola** played to you and its beauties explained, or, better, play it yourself.

You will be surprised at your first attempt to produce your favorite air.

There are many imitations of the PIANOLA, but they all fall far short of the mark.

ITS ORGANIC PURITY

MAKES BALLARDOVALE LITHIA

The most acceptable table water. It is the purest water ever submitted to the test set by the French government. This purity makes it odorless, colorless, and tasteless, so that one may use it in unlimited quantities with never a reminder by color, taste, or smell of its medicinal properties.

IT CONTAINS MORE LITHIA

Than any other water on the market. 87 per cent. of its mineral contents consists of salts of lithia. There is hardly a man who would not be highly benefited in health by its constant use. Those suffering from Gout, Gravel, Diabetes, Rheumatism, etc., find in it immediate and permanent relief.

IN A MUSICAL ATMOSPHERE IS THE PLACE TO TALK PIANOS

That is why we advertise in this programme, and incidentally to talk about ourselves and our facilities for meeting your every desire in the way of pianos.

We have been selling pianos for **Forty Years**, and during that time have so satisfied our patrons that we have grown to be the **Largest Retail Piano House in the World.**

Could we have reached this proud position, had not our Pianos, Methods, and Service been of the Highest Standard?

Our lines are always complete and comprise the leaders only, in reputation, style, variety, tone, touch, quality, and price, while our system is on the characteristic Steinert scale. You wish to purchase, lease, rent, or only to look: you will be accommodated and with every courtesy.

Our stock is headed by the monarch of tone, the peerless, unapproached STEINWAY, from which standard all other pianos are gauged; while the others, Mason & Hamlin, Hardman, Gabler, Jewett, Woodbury, Shoninger, Standard, and Steinertone, all are worthy of your notice. Your inspection is requested.

YOU CAN HAVE A POP CONCERT AT HOME WITH A PIANOLA

The fingers of melody are the keys of a Pianola. Touched by a breath or shaken by a storm, according to the whim of the player and the theme of the composition, the Pianola will produce the masterpiece of the genius from the hands of the novice.

A Pianola at \$250 is almost a household necessity in these musical days.

With the accompanying rolls every phase of music, from the popular air of the day to the standard works of the old masters, can be played with all the exquisite shadings of the original by one with no previous knowledge of the piano.

If your children are inclined to be musical, you owe it to them to encourage it by purchasing a Pianola. Its simplicity will at once appeal to them, and its novelty be a welcome contrast to the hated drudgery of the music lesson. They will eagerly accept it as "playing" and not "working," and their lesson will then become a joy and not a task.

Their lesson can take the form of a composition from a high classic, which the Pianola will play for them accurately and repeatedly until the notes and tempo are fixed in their mind, when the Pianola can be disconnected from the piano and the music played directly from the keys.

Just step into our warerooms and have the Pianola played to you and its beauties explained, or, better, play it yourself.

You will be surprised at your first attempt to produce your favorite air.

There are many imitations of the PIANOLA, but they all fall far short of the mark.

ITS ORGANIC PURITY

MAKES BALLARDALE LITHIA

The most acceptable table water. It is the purest water ever submitted to the test set by the French government. This purity makes it odorless, colorless, and tasteless, so that one may use it in unlimited quantities with never a reminder by color, taste, or smell of its medicinal properties.

IT CONTAINS MORE LITHIA

Than any other water on the market. 87 per cent. of its mineral contents consists of salts of lithia. There is hardly a man who would not be highly benefited in health by its constant use. Those suffering from Gout, Gravel, Diabetes, Rheumatism, etc., find in it immediate and permanent relief.

OUR LIST

STEINWAY THE PEERLESS AND UNAPPROACHED.

MASON & HAMLIN, HARDMAN, GABLER, JEWETT, WOODBURY,
SHONINGER, STANDARD, AND

THE STEINERTONE.

CALL IN AND SEE THEM, HEAR THEM PLAYED, PLAY THEM YOUR-
SELF, GET OUR TERMS AND PRICES, AND YOU WILL SURELY BUY.

DID YOU EVER TRY THE PIANOLA?

With it and its wonderful rolls of perforated paper, covering every piece of music, from the highest sonata to the latest melody in ragtime, and all the wide range of music between, can be played without an instant's practice or the drudgery of learning. By its system of interchangeable rolls you can have a

"LIBRARY OF HARMONY."

You hear a popular song, an air from a grand or comic opera, a masterpiece of Paderewski or Bauer, a soul-stirring march from Sousa or an anthem from a celestial theme. Apply to the nearest agency, and it's yours, not only to **hear**, but to **play**; for with the Pianola you can play them with all the varied expressions of the original. This of itself is an additional enjoyment.

Pianos spoil oftener from standing idle than when subjected to the hardest playing. Use it then, use it with a Pianola. Everybody in the house can play it, from the child just large enough to pump the air to the grandsire softly playing to himself some long-remembered favorite air.

As a musical educator, too, the Pianola is a valuable adjunct. It instills the desire to play into those who are disinclined to master the piano, particularly the young, to whom the hated "music lesson" is a thing to be evaded whenever possible. With it the pupil can become familiar with all the shades and tones of his selection, and by repetition on the Pianola fix them in his mind. He can then attempt it on the keys, with surprising success.

Instantly connected or disconnected from the piano, small, compact, and easily moved, it takes but a small space, and even then is an ornament. Don't let your piano stand unused any longer.

BUY A PIANOLA AT \$250.

The cost is not felt, especially when you take advantage of our Easy Payment system, by which you enjoy its use while paying for it.

As an investment you will never regret the money, as it is spent for the whole family. Think it over and call upon us. Ask to see it played, play it yourself: you will be surprised and gratified at your own playing.

TO THE PROFESSION...

The increasing demand for GOOD English songs, and the seeming difficulty in procuring the same, compels us to draw the special attention of the profession generally to the fact that, in addition to our extensive catalogue, we represent the three leading catalogues in Europe. We can offer a variety unsurpassed of compositions by the best composers in the English and French languages on the same date of publication as in Europe. Ask for BOOSEY & COMPANY'S publications, and, if there is any difficulty in obtaining them, please address direct to

THE STEINERTONE.

CALL IN AND SEE THEM, HEAR THEM PLAYED, PLAY THEM YOUR-
SELF, GET OUR TERMS AND PRICES, AND YOU WILL SURELY BUY.

DID YOU EVER TRY THE PIANOLA?

With it and its wonderful rolls of perforated paper, covering every piece of music, from the highest sonata to the latest melody in ragtime, and all the wide range of music between, can be played without an instant's practice or the drudgery of learning. By its system of interchangeable rolls you can have a

"LIBRARY OF HARMONY."

You hear a popular song, an air from a grand or comic opera, a masterpiece of Paderewski or Bauer, a soul-stirring march from Sousa or an anthem from a celestial theme. Apply to the nearest agency, and it's yours, not only to **hear**, but to **play**; for with the Pianola you can play them with all the varied expressions of the original. This of itself is an additional enjoyment.

Pianos spoil oftener from standing idle than when subjected to the hardest playing. Use it then, use it with a Pianola. Everybody in the house can play it, from the child just large enough to pump the air to the grandsire softly playing to himself some long-remembered favorite air.

As a musical educator, too, the Pianola is a valuable adjunct. It instills the desire to play into those who are disinclined to master the piano, particularly the young, to whom the hated "music lesson" is a thing to be evaded whenever possible. With it the pupil can become familiar with all the shades and tones of his selection, and by repetition on the Pianola fix them in his mind. He can then attempt it on the keys, with surprising success.

Instantly connected or disconnected from the piano, small, compact, and easily moved, it takes but a small space, and even then is an ornament. Don't let your piano stand unused any longer.

BUY A PIANOLA AT \$250.

The cost is not felt, especially when you take advantage of our Easy Payment system, by which you enjoy its use while paying for it.

As an investment you will never regret the money, as it is spent for the whole family. Think it over and call upon us. Ask to see it played, play it yourself: you will be surprised and gratified at your own playing.

During the Intermission

READ
THIS

The summer time is the best time in the year to examine our line of pianos.

There is less bustle and activity than in the fall, you have more leisure to look, ask questions, and get familiar with various makers, try each, and make your selections.

Our magnificent warerooms are cool, spacious, well lighted, and a restful place to spend an idle hour inspecting and playing our pianos.

Our line was never so varied and so complete as at present. Every grade and style is on exhibition, headed by the Tone Monarch, the Peerless, Unapproached Steinway, including Mason & Hamlin, Hardman, Gabler, Jewett, Woodbury, Shoninger, Standard and the Steinertone.

If you do not care to purchase and pay all at once, make your choice, pay a small sum to insure its delivery, then a little at a time until paid for, thus enjoying its use while paying for the piano. This is our Easy Payment System, and is fair and just to all.

While you are inspecting our line of Pianos, don't fail to ask the salesman to show you the Musical Wonder of the Century, the unique **Pianola**, the "instrument that plays an instrument."

With a choice, well-selected assortment of the wonderful perforated paper rolls and a **Pianola**, your house is well equipped to supply the music for the family without having of necessity a musician among them.

Tastes in music widely differ: one prefers classical and thinks all else rubbish, another leans to the sentimental, another the sublime, while still a fourth is only happy when listening to the latest popular ragtime air of the day.

With these rolls and the **Pianola** all can be satisfied and entertained.

Again, one's moods enter largely into one's musical desires at the moment. You are serious, a dreamy nocturne suits your fancy; patriotic, Sousa's "Stars and Stripes" appeals to you; gay and the latest concert hall ditty coincides with your mood. All of these are at your instant command with the rolls and the **Pianola**.

And you don't have to be a piano player, either, to enjoy all these. It is not necessary to know a note of music. Just attach your **Pianola** to your piano, insert the roll of music desired, and play.

With the **Pianola** ANY KIND of a composition can be played equally well by ANY PERSON, while the music is not in any sense mechanical.

The tone and expression are all there, the wonderful little instrument supplying those essential features automatically.

The price is reasonable, \$250.00, and it need not be all paid at once. It is sold on the easy payment plan, thus giving you the pleasure of its use while paying for it.

The rolls are not expensive either; and, if you do not care to lay in a large quantity, there are literally LIBRARIES of HARMONY, where for a payment of a certain sum per year you can take selections and use them until you desire a change, when they can be substituted for another choice.

ITS ORGANIC PURITY

MAKES BALLARDVALE LITHIA

The most acceptable table water. It is the purest water ever submitted to the test set by the French government. This purity makes it odorless, colorless, and tasteless, so that one may use it in unlimited quantities with never a reminder by color, taste, or smell of its medicinal properties.

IT CONTAINS MORE LITHIA

Than any other water on the market. 87 per cent. of its mineral contents consists of salts of lithia. There is hardly a man who would not be highly benefited in health by its constant use. Those suffering from Gout, Gravel, Diabetes, Rheumatism, etc., find in it immediate and permanent relief.

READ
THIS

The summer time is the best time in the year to examine our line of pianos.

There is less bustle and activity than in the fall, you have more leisure to look, ask questions, and get familiar with various makers, try each, and make your selections.

Our magnificent warerooms are cool, spacious, well lighted, and a restful place to spend an idle hour inspecting and playing our pianos.

Our line was never so varied and so complete as at present. Every grade and style is on exhibition, headed by the Tone Monarch, the Peerless, Unapproached Steinway, including Mason & Hamlin, Hardman, Gabler, Jewett, Woodbury, Shoninger, Standard, and the Steinertone.

If you do not care to purchase and pay all at once, make your choice, pay a small sum to insure its delivery, then a little at a time until paid for, thus enjoying its use while paying for the piano. This is our Easy Payment System, and is fair and just to all.

While you are inspecting our line of Pianos, don't fail to ask the salesman to show you the Musical Wonder of the Century, the unique **Pianola**, the "instrument that plays an instrument."

With a choice, well-selected assortment of the wonderful perforated paper rolls and a **Pianola**, your house is well equipped to supply the music for the family without having of necessity a musician among them.

Tastes in music widely differ: one prefers classical and thinks all else rubbish, another leans to the sentimental, another the sublime, while still a fourth is only happy when listening to the latest popular ragtime air of the day.

With these rolls and the **Pianola** all can be satisfied and entertained.

Again, one's moods enter largely into one's musical desires at the moment. You are serious, a dreamy nocturne suits your fancy; patriotic, Sousa's "Stars and Stripes" appeals to you; gay, and the latest concert hall ditty coincides with your mood. All of these are at your instant command with the rolls and the **Pianola**.

And you don't have to be a piano player, either, to enjoy all these. It is not necessary to know a note of music. Just attach your **Pianola** to your piano, insert the roll of music desired, and play.

With the **Pianola** ANY KIND of a composition can be played equally well by ANY PERSON, while the music is not in any sense mechanical.

The tone and expression are all there, the wonderful little instrument supplying those essential features automatically.

The price is reasonable, \$250.00, and it need not be all paid at once. It is sold on the easy payment plan, thus giving you the pleasure of its use while paying for it.

The rolls are not expensive either; and, if you do not care to lay in a large quantity, there are literally LIBRARIES of HARMONY, where for a payment of a certain sum per year you can take selections and use them until you desire a change, when they can be substituted for another choice.

ITS ORGANIC PURITY

MAKES BALLARDVALE LITHIA

The most acceptable table water. It is the purest water ever submitted to the test set by the French government. This purity makes it odorless, colorless, and tasteless, so that one may use it in unlimited quantities with never a reminder by color, taste, or smell of its medicinal properties.

IT CONTAINS MORE LITHIA

Than any other water on the market. 87 per cent. of its mineral contents consists of salts of lithia. There is hardly a man who would not be highly benefited in health by its constant use. Those suffering from Gout, Gravel, Diabetes, Rheumatism, etc., find in it immediate and permanent relief.

IN A MUSICAL ATMOSPHERE IS THE PLACE TO TALK PIANOS

That is why we advertise in this programme, and incidentally to talk about ourselves and our facilities for meeting your every desire in the way of pianos.

We have been selling pianos for **Forty Years**, and during that time have so satisfied our patrons that we have grown to be the **Largest Retail Piano House in the World.**

Could we have reached this proud position, had not our Pianos, Methods, and Service been of the Highest Standard?

Our lines are always complete and comprise the leaders only, in reputation, style, variety, tone, touch, quality, and price, while our system is on the characteristic Steinert scale. You wish to purchase, lease, rent, or only to look: you will be accommodated and with every courtesy.

Our stock is headed by the monarch of tone, the peerless, unapproached STEINWAY, from which standard all other pianos are gauged; while the others, Mason & Hamlin, Hardman, Gabler, Jewett, Woodbury, Shoninger, Standard, and Steinertone, all are worthy of your notice. Your inspection is requested.

YOU CAN HAVE A POP CONCERT AT HOME WITH A PIANOLA

The fingers of melody are the keys of a Pianola. Touched by a breath or shaken by a storm, according to the whim of the player and the theme of the composition, the Pianola will produce the masterpiece of the genius from the hands of the novice.

A Pianola at \$250 is almost a household necessity in these musical days.

With the accompanying rolls every phase of music, from the popular air of the day to the standard works of the old masters, can be played with all the exquisite shadings of the original by one with no previous knowledge of the piano.

If your children are inclined to be musical, you owe it to them to encourage it by purchasing a Pianola. Its simplicity will at once appeal to them, and its novelty be a welcome contrast to the hated drudgery of the music lesson. They will eagerly accept it as "playing" and not "working," and their lesson will then become a joy and not a task.

Their lesson can take the form of a composition from a high classic, which the Pianola will play for them accurately and repeatedly until the notes and tempo are fixed in their mind, when the Pianola can be disconnected from the piano and the music played directly from the keys.

Just step into our warerooms and have the Pianola played to you and its beauties explained, or, better, play it yourself.

You will be surprised at your first attempt to produce your favorite air.

There are many imitations of the PIANOLA, but they all fall far short of the mark.

ITS ORGANIC PURITY

MAKES BALLARDALE LITHIA

The most acceptable table water. It is the purest water ever submitted to the test set by the French government. This purity makes it odorless, colorless, and tasteless, so that one may use it in unlimited quantities with never a reminder by color, taste, or smell of its medicinal properties.

IT CONTAINS MORE LITHIA

Than any other water on the market. 87 per cent. of its mineral contents consists of salts of lithia. There is hardly a man who would not be highly benefited in health by its constant use. Those suffering from Gout, Gravel, Diabetes, Rheumatism, etc., find in it immediate and permanent relief.

IN A MUSICAL ATMOSPHERE IS THE PLACE TO TALK PIANOS

That is why we advertise in this programme, and incidentally to talk about ourselves and our facilities for meeting your every desire in the way of pianos.

We have been selling pianos for **Forty Years**, and during that time have so satisfied our patrons that we have grown to be the **Largest Retail Piano House in the World**.

Could we have reached this proud position, had not our Pianos, Methods, and Service been of the Highest Standard?

Our lines are always complete and comprise the leaders only, in reputation, style, variety, tone, touch, quality, and price, while our system is on the characteristic Steinert scale. You wish to purchase, lease, rent, or only to look: you will be accommodated and with every courtesy.

Our stock is headed by the monarch of tone, the peerless, unapproached STEINWAY, from which standard all other pianos are gauged; while the others, Mason & Hamlin, Hardman, Gabler, Jewett, Woodbury, Shoninger, Standard, and Steinertone, all are worthy of your notice. Your inspection is requested.

YOU CAN HAVE A POP CONCERT AT HOME WITH A PIANOLA

The fingers of melody are the keys of a Pianola. Touched by a breath or shaken by a storm, according to the whim of the player and the theme of the composition, the **Pianola** will produce the masterpiece of the genius from the hands of the novice.

A **Pianola** at \$250 is almost a household necessity in these musical days.

With the accompanying rolls every phase of music, from the popular air of the day to the standard works of the old masters, can be played with all the exquisite shadings of the original by one with no previous knowledge of the piano.

If your children are inclined to be musical, you owe it to them to encourage it by purchasing a **Pianola**. Its simplicity will at once appeal to them, and its novelty be a welcome contrast to the hated drudgery of the music lesson. They will eagerly accept it as "playing" and not "working," and their lesson will then become a joy and not a task.

Their lesson can take the form of a composition from a high classic, which the **Pianola** will play for them accurately and repeatedly until the notes and tempo are fixed in their mind, when the **Pianola** can be disconnected from the piano and the music played directly from the keys.

Just step into our warerooms and have the **Pianola** played to you and its beauties explained, or, better, play it yourself.

You will be surprised at your first attempt to produce your favorite air.

There are many imitations of the PIANOLA, but they all fall far short of the mark.

ITS ORGANIC PURITY

MAKES BALLARDVALE LITHIA

The most acceptable table water. It is the purest water ever submitted to the test set by the French government. This purity makes it odorless, colorless, and tasteless, so that one may use it in unlimited quantities with never a reminder by color, taste, or smell of its medicinal properties.

IT CONTAINS MORE LITHIA

Than any other water on the market. 87 per cent. of its mineral contents consists of salts of lithia. There is hardly a man who would not be highly benefited in health by its constant use. Those suffering from Gout, Gravel, Diabetes, Rheumatism, etc., find in it immediate and permanent relief.

IN A MUSICAL ATMOSPHERE IS THE PLACE TO TALK PIANOS

That is why we advertise in this programme, and incidentally to talk about ourselves and our facilities for meeting your every desire in the way of pianos.

We have been selling pianos for **Forty Years**, and during that time have so satisfied our patrons that we have grown to be the **Largest Retail Piano House in the World**.

Could we have reached this proud position, had not our Pianos, Methods, and Service been of the Highest Standard?

Our lines are always complete and comprise the leaders only, in reputation, style, variety, tone, touch, quality, and price, while our system is on the characteristic Steinert scale. You wish to purchase, lease, rent, or only to look: you will be accommodated and with every courtesy.

Our stock is headed by the monarch of tone, the peerless, unapproached STEINWAY, from which standard all other pianos are gauged; while the others, Mason & Hamlin, Hardman, Gabler, Jewett, Woodbury, Shoninger, Standard, and Steinertone, all are worthy of your notice. Your inspection is requested.

YOU CAN HAVE A POP CONCERT AT HOME WITH A PIANOLA

The fingers of melody are the keys of a Pianola. Touched by a breath or shaken by a storm, according to the whim of the player and the theme of the composition, the Pianola will produce the masterpiece of the genius from the hands of the novice.

A Pianola at \$250 is almost a household necessity in these musical days.

With the accompanying rolls every phase of music, from the popular air of the day to the standard works of the old masters, can be played with all the exquisite shadings of the original by one with no previous knowledge of the piano.

If your children are inclined to be musical, you owe it to them to encourage it by purchasing a Pianola. Its simplicity will at once appeal to them, and its novelty be a welcome contrast to the hated drudgery of the music lesson. They will eagerly accept it as "playing" and not "working," and their lesson will then become a joy and not a task.

Their lesson can take the form of a composition from a high classic, which the Pianola will play for them accurately and repeatedly until the notes and tempo are fixed in their mind, when the Pianola can be disconnected from the piano and the music played directly from the keys.

Just step into our warerooms and have the Pianola played to you and its beauties explained, or, better, play it yourself.

You will be surprised at your first attempt to produce your favorite air.

There are many imitations of the PIANOLA, but they all fall far short of the mark.

DID YOU EVER TRY THE PIANOLA?

With it and its wonderful rolls of perforated paper, covering every piece of music, from the highest sonata to the latest melody in ragtime, and all the wide range of music between, can be played without an instant's practice or the drudgery of learning. By its system of interchangeable rolls you can have a

"LIBRARY OF HARMONY."

You hear a popular song, an air from a grand or comic opera, a masterpiece of Paderewski or Bauer, a soul-stirring march from Sousa or an anthem from a celestial theme. Apply to the nearest agency, and it's yours, not only to **hear**, but to **play**; for with the Pianola you can play them with all the varied expressions of the original. This of itself is an additional enjoyment.

Pianos spoil oftener from standing idle than when subjected to the hardest playing. Use it then, use it with a Pianola. Everybody in the house can play it, from the child just large enough to pump the air to the grandsire softly playing to himself some long-remembered favorite air.

As a musical educator, too, the Pianola is a valuable adjunct. It instills the desire to play into those who are disinclined to master the piano, particularly the young, to whom the hated "music lesson" is a thing to be evaded whenever possible. With it the pupil can become familiar with all the shades and tones of his selection, and by repetition on the Pianola fix them in his mind. He can then attempt it on the keys, with surprising success.

Instantly connected or disconnected from the piano, small, compact, and easily moved, it takes but a small space, and even then is an ornament. Don't let your piano stand unused any longer.

BUY A PIANOLA AT \$250.

The cost is not felt, especially when you take advantage of our Easy Payment system, by which you enjoy its use while paying for it.

As an investment you will never regret the money, as it is spent for the whole family. Think it over and call upon us. Ask to see it played, play it yourself: you will be surprised and gratified at your own playing.

READ
THIS

The summer time is the best time in the year to examine our line of pianos.

There is less bustle and activity than in the fall, you have more leisure to look, ask questions, and get familiar with various makers, try each, and make your selections.

Our magnificent warerooms are cool, spacious, well lighted, and a restful place to spend an idle hour inspecting and playing our pianos.

Our line was never so varied and so complete as at present. Every grade and style is on exhibition, headed by the Tone Monarch, the Peerless, Unapproached Steinway, including Mason & Hamlin, Hardman, Gabler, Jewett, Woodbury, Shoninger, Standard, and the Steinertone.

If you do not care to purchase and pay all at once, make your choice, pay a small sum to insure its delivery, then a little at a time until paid for, thus enjoying its use while paying for the piano. This is our Easy Payment System, and is fair and just to all.

While you are inspecting our line of Pianos, don't fail to ask the salesman to show you the Musical Wonder of the Century, the unique **Pianola**, the "instrument that plays an instrument."

With a choice, well-selected assortment of the wonderful perforated paper rolls and a **Pianola**, your house is well equipped to supply the music for the family without having of necessity a musician among them.

Tastes in music widely differ: one prefers classical and thinks all else rubbish, another leans to the sentimental, another the sublime, while still a fourth is only happy when listening to the latest popular ragtime air of the day.

With these rolls and the **Pianola** all can be satisfied and entertained.

Again, one's moods enter largely into one's musical desires at the moment. You are serious, a dreamy nocturne suits your fancy; patriotic, Sousa's "Stars and Stripes" appeals to you; gay, and the latest concert hall ditty coincides with your mood. All of these are at your instant command with the rolls and the **Pianola**.

And you don't have to be a piano player, either, to enjoy all these. It is not necessary to know a note of music. Just attach your **Pianola** to your piano, insert the roll of music desired, and play. With the **Pianola** ANY KIND of a composition can be played equally well by ANY PERSON, while the music is not in any sense mechanical.

The tone and expression are all there, the wonderful little instrument supplying those essential features automatically.

The price is reasonable, \$250.00, and it need not be all paid at once. It is sold on the easy payment plan, thus giving you the pleasure of its use while paying for it.

The rolls are not expensive either; and, if you do not care to lay in a large quantity, there are literally LIBRARIES of HARMONY, where for a payment of a certain sum per year you can take selections and use them until you desire a change, when they can be substituted for another choice.

ITS ORGANIC PURITY

MAKES BALLARDALE LITHIA

The most acceptable table water. It is the purest water ever submitted to the test set by the French government. This purity makes it odorless, colorless, and tasteless, so that one may use it in unlimited quantities with never a reminder by color, taste, or smell of its medicinal properties.

IT CONTAINS MORE LITHIA

Than any other water on the market. 87 per cent. of its mineral contents consists of salts of lithia. There is hardly a man who would not be highly benefited in health by its constant use. Those suffering from Gout, Gravel, Diabetes, Rheumatism, etc., find in it immediate and permanent relief.

We can offer a variety unsurpassed of compositions by the best composers in the English and French languages on the same date of publication as in Europe. READ
THIS

The summer time is the best time in the year to examine our line of pianos.

There is less bustle and activity than in the fall, you have more leisure to look, ask questions, and get familiar with various makers, try each, and make your selections.

Our magnificent warerooms are cool, spacious, well lighted, and a restful place to spend an idle hour inspecting and playing our pianos.

Our line was never so varied and so complete as at present. Every grade and style is on exhibition, headed by the Tone Monarch, the Peerless, Unapproached Steinway, including Mason & Hamlin, Hardman, Gabler, Jewett, Woodbury, Shoninger, Standard, and the Steinertone.

If you do not care to purchase and pay all at once, make your choice, pay a small sum to insure its delivery, then a little at a time until paid for, thus enjoying its use while paying for the piano. This is our Easy Payment System, and is fair and just to all.

While you are inspecting our line of Pianos, don't fail to ask the salesman to show you the Musical Wonder of the Century, the unique **Pianola**, the "instrument that plays an instrument."

With a choice, well-selected assortment of the wonderful perforated paper rolls and a **Pianola**, your house is well equipped to supply the music for the family without having of necessity a musician among them.

Tastes in music widely differ: one prefers classical and thinks all else rubbish, another leans to the sentimental, another the sublime, while still a fourth is only happy when listening to the latest popular ragtime air of the day.

With these rolls and the **Pianola** all can be satisfied and entertained.

Again, one's moods enter largely into one's musical desires at the moment. You are serious, a dreamy nocturne suits your fancy; patriotic, Sousa's "Stars and Stripes" appeals to you; gay, and the latest concert hall ditty coincides with your mood. All of these are at your instant command with the rolls and the **Pianola**.

And you don't have to be a piano player, either, to enjoy all these. It is not necessary to know a note of music. Just attach your **Pianola** to your piano, insert the roll of music desired, and play. With the **Pianola** ANY KIND of a composition can be played equally well by ANY PERSON, while the music is not in any sense mechanical.

The tone and expression are all there, the wonderful little instrument supplying those essential features automatically.

The price is reasonable, \$250.00, and it need not be all paid at once. It is sold on the easy payment plan, thus giving you the pleasure of its use while paying for it.

The rolls are not expensive either; and, if you do not care to lay in a large quantity, there are literally LIBRARIES of HARMONY, where for a payment of a certain sum per year you can take selections and use them until you desire a change, when they can be substituted for another choice.

Authentic records exist of cures from the healing waters of the Ballardvale Lithia Spring. Tradition goes back another hundred years, when the aborigines drank the healing waters of the "big spring."

DRINK ONLY THE PUREST. BALLARDVALE LITHIA WATER

Has been for a century a standard cure for all ailments of the stomach, liver, kidneys, and bladder. Its organic purity and tastelessness make it possible to drink it in unlimited quantities,—highly beneficial to the sick, palatable and refreshing to the well. That is why we advertise in this programme, and incidentally to talk about ourselves and our facilities for meeting your every desire in the way of pianos.

We have been selling pianos for **Forty Years**, and during that time have so satisfied our patrons that we have grown to be the **Largest Retail Piano House in the World.**

Could we have reached this proud position, had not our Pianos, Methods, and Service been of the Highest Standard?

Our lines are always complete and comprise the leaders only, in reputation, style, variety, tone, touch, quality, and price, while our system is on the characteristic Steinert scale. You wish to purchase, lease, rent, or only to look: you will be accommodated and with every courtesy.

Our stock is headed by the monarch of tone, the peerless, unapproached STEINWAY, from which standard all other pianos are gauged; while the others, Mason & Hamlin, Hardman, Gabler, Jewett, Woodbury, Shoninger, Standard, and Steinertone, all are worthy of your notice. Your inspection is requested.

YOU CAN HAVE A POP CONCERT ^{AT HOME WITH} A PIANOLA

The fingers of melody are the keys of a Pianola. Touched by a breath or shaken by a storm, according to the whim of the player and the theme of the composition, the Pianola will produce the masterpiece of the genius from the hands of the novice.

A Pianola at \$250 is almost a household necessity in these musical days.

With the accompanying rolls every phase of music, from the popular air of the day to the standard works of the old masters, can be played with all the exquisite shadings of the original by one with no previous knowledge of the piano.

If your children are inclined to be musical, you owe it to them to encourage it by purchasing a Pianola. Its simplicity will at once appeal to them, and its novelty be a welcome contrast to the hated drudgery of the music lesson. They will eagerly accept it as "playing" and not "working," and their lesson will then become a joy and not a task.

Their lesson can take the form of a composition from a high classic, which the Pianola will play for them accurately and repeatedly until the notes and tempo are fixed in their mind, when the Pianola can be disconnected from the piano and the music played directly from the keys.

Just step into our warerooms and have the Pianola played to you and its beauties explained, or, better, play it yourself.

You will be surprised at your first attempt to produce your favorite air.

There are many imitations of the PIANOLA, but they all fall far short of the mark.

Authentic records exist of cures from the healing waters of the Ballardvale Lithia Spring. Tradition goes back another hundred years, when the aborigines drank the healing waters of the "big spring."

DRINK ONLY THE PUREST.

BALLARDVALE LITHIA WATER

Has been for a century a standard cure for all ailments of the stomach, liver, kidneys, and bladder. Its organic purity and tastelessness make it possible to drink it in unlimited quantities,—highly beneficial to the sick, palatable and refreshing to the well. As a table water it is without an equal.

The fingers of melody are the keys of a Pianola. Touched by a breath or shaken by a storm, according to the whim of the player and the theme of the composition, the **Pianola** will produce the masterpiece of the genius from the hands of the novice.

A **Pianola** at \$250 is almost a household necessity in these musical days.

With the accompanying rolls every phase of music, from the popular air of the day to the standard works of the old masters, can be played with all the exquisite shadings of the original by one with no previous knowledge of the piano.

If your children are inclined to be musical, you owe it to them to encourage it by purchasing a **Pianola**. Its simplicity will at once appeal to them, and its novelty be a welcome contrast to the hated drudgery of the music lesson. They will eagerly accept it as "playing" and not "working," and their lesson will then become a joy and not a task.

Their lesson can take the form of a composition from a high classic, which the **Pianola** will play for them accurately and repeatedly until the notes and tempo are fixed in their mind, when the **Pianola** can be disconnected from the piano and the music played directly from the keys.

Just step into our warerooms and have the **Pianola** played to you and its beauties explained, or, better, play it yourself.

You will be surprised at your first attempt to produce your favorite air.

There are many imitations of the PIANOLA, but they all fall far short of the mark.

BALLARDVALE LITHIA WATER

Has been for a century a standard cure for all ailments of the stomach, liver, kidneys, and bladder. Its organic purity and tastelessness make it possible to drink it in unlimited quantities,—highly beneficial to the sick, palatable and refreshing to the well. As a table water it is without an equal.

world, which has just arrived, consisting principally of

Fine Old Kentucky Taylor WHISKEY

This record of TEN CARLOADS OF WHISKEY has never been approached by any other distiller.

It takes eight years to make and mature this whiskey. From the time it is distilled till it is bottled Wright & Taylor exercise the most careful supervision and attention. DID YOU EVER TRY THE PIANOLA?

With it and its wonderful rolls of perforated paper, covering every piece of music, from the highest sonata to the latest melody in ragtime, and all the wide range of music between, can be played without an instant's practice or the drudgery of learning. By its system of interchangeable rolls you can have a

"LIBRARY OF HARMONY."

You hear a popular song, an air from a grand or comic opera, a masterpiece of Paderewski or Bauer, a soul-stirring march from Sousa or an anthem from a celestial theme. Apply to the nearest agency, and it's yours, not only to **hear**, but to **play**; for with the Pianola you can play them with all the varied expressions of the original. This of itself is an additional enjoyment.

Pianos spoil oftener from standing idle than when subjected to the hardest playing. Use it then, use it with a Pianola. Everybody in the house can play it, from the child just large enough to pump the air to the grandsire softly playing to himself some long-remembered favorite air.

As a musical educator, too, the Pianola is a valuable adjunct. It instills the desire to play into those who are disinclined to master the piano, particularly the young, to whom the hated "music lesson" is a thing to be evaded whenever possible. With it the pupil can become familiar with all the shades and tones of his selection, and by repetition on the Pianola fix them in his mind. He can then attempt it on the keys, with surprising success.

Instantly connected or disconnected from the piano, small, compact, and easily moved, it takes but a small space, and even then is an ornament. Don't let your piano stand unused any longer.

BUY A PIANOLA AT \$250.

The cost is not felt, especially when you take advantage of our Easy Payment system, by which you enjoy its use while paying for it.

As an investment you will never regret the money, as it is spent for the whole family. Think it over and call upon us. Ask to see it played, play it yourself: you will be surprised and gratified at your own playing.

TO THE PROFESSION...

The increasing demand for GOOD English songs, and the seeming difficulty in procuring the same, compels us to draw the special attention of the profession generally to the fact that, in addition to our extensive catalogue, we represent the three leading catalogues in Europe. We can offer a variety unsurpassed of compositions by the best composers in the English and French languages on the same date of publication as in Europe. Ask for BOOSEY & COMPANY'S publications, and, if there is any difficulty in obtaining them, please address direct to

This record of TEN CARLOADS OF WHISKEY has never been approached by any other distiller.

It takes eight years to make and mature this whiskey. From the time it is distilled till it is bottled Wright & Taylor exercise the most careful supervision and attention. Authentic records exist of cures from the healing waters of the Ballardvale Lithia Spring. Tradition goes back another hundred years, when the aborigines drank the healing waters of the "big spring."

BALLARDVALE LITHIA WATER

Has been for a century a standard cure for all ailments of the stomach, liver, kidneys, and bladder. Its organic purity and tastelessness make it possible to drink it in unlimited quantities,—highly beneficial to the sick, palatable and refreshing to the well. DID YOU EVER TRY THE PIANOLA?

With it and its wonderful rolls of perforated paper, covering every piece of music, from the highest sonata to the latest melody in ragtime, and all the wide range of music between, can be played without an instant's practice or the drudgery of learning. By its system of interchangeable rolls you can have a

"LIBRARY OF HARMONY."

You hear a popular song, an air from a grand or comic opera, a masterpiece of Paderewski or Bauer, a soul-stirring march from Sousa or an anthem from a celestial theme. Apply to the nearest agency, and it's yours, not only to **hear**, but to **play**; for with the Pianola you can play them with all the varied expressions of the original. This of itself is an additional enjoyment.

Pianos spoil oftener from standing idle than when subjected to the hardest playing. Use it then, use it with a Pianola. Everybody in the house can play it, from the child just large enough to pump the air to the grandsire softly playing to himself some long-remembered favorite air.

As a musical educator, too, the Pianola is a valuable adjunct. It instills the desire to play into those who are disinclined to master the piano, particularly the young, to whom the hated "music lesson" is a thing to be evaded whenever possible. With it the pupil can become familiar with all the shades and tones of his selection, and by repetition on the Pianola fix them in his mind. He can then attempt it on the keys, with surprising success.

Instantly connected or disconnected from the piano, small, compact, and easily moved, it takes but a small space, and even then is an ornament. Don't let your piano stand unused any longer.

BUY A PIANOLA AT \$250.

The cost is not felt, especially when you take advantage of our Easy Payment system, by which you enjoy its use while paying for it.

As an investment you will never regret the money, as it is spent for the whole family. Think it over and call upon us. Ask to see it played, play it yourself: you will be surprised and gratified at your own playing.

During the Intermission

READ
THIS

The summer time is the best time in the year to examine our line of pianos.

There is less bustle and activity than in the fall, you have more leisure to look, ask questions, and get familiar with various makers, try each, and make your selections.

Our magnificent warerooms are cool, spacious, well lighted, and a restful place to spend an idle hour inspecting and playing our pianos.

Our line was never so varied and so complete as at present. Every grade and style is on exhibition, headed by the Tone Monarch, the Peerless, Unapproached Steinway, including Mason & Hamlin, Hardman, Gabler, Jewett, Woodbury, Shoninger, Standard, and the Steinertone.

If you do not care to purchase and pay all at once, make your choice, pay a small sum to insure its delivery, then a little at a time until paid for, thus enjoying its use while paying for the piano. This is our Easy Payment System, and is fair and just to all.

While you are inspecting our line of Pianos, don't fail to ask the salesman to show you the Musical Wonder of the Century, the **Pianola**, the "instrument that plays an instrument."

With a choice, well-selected assortment of the wonderful perforated paper rolls and a **Pianola**, your house is well equipped to supply the music for the family without having of necessity a musician among them.

Tastes in music widely differ: one prefers classical and thinks all else rubbish, another leans to the sentimental, another the sublime, while still a fourth is only happy when listening to the latest popular ragtime air of the day.

With these rolls and the **Pianola** all can be satisfied and entertained.

Again, one's moods enter largely into one's musical desires at the moment. You are serious, a dreamy nocturne suits your fancy; patriotic, Sousa's "Stars and Stripes" appeals to you; gay, and the latest concert hall ditty coincides with your mood. All of these are at your instant command with the rolls and the **Pianola**.

And you don't have to be a piano player, either, to enjoy all these. It is not necessary to know a note of music. Just attach your **Pianola** to your piano, insert the roll of music desired, and play.

With the **Pianola** ANY KIND of a composition can be played equally well by ANY PERSON, while the music is not in any sense mechanical.

The tone and expression are all there, the wonderful little instrument supplying those essential features automatically.

The price is reasonable, \$250.00, and it need not be all paid at once. It is sold on the easy payment plan, thus giving you the pleasure of its use while paying for it.

The rolls are not expensive either; and, if you do not care to lay in a large quantity, there are literally LIBRARIES of HARMONY, where for a payment of a certain sum per year you can take selections and use them until you desire a change, when they can be substituted for another choice.

TO THE PROFESSION...

The increasing demand for GOOD English songs, and the seeming difficulty in procuring the same, compels us to draw the special attention of the profession generally to the fact that, in addition to our extensive catalogue, we represent the three leading catalogues in Europe. We can offer a variety unsurpassed of compositions by the best composers in the English and French languages on the same date of publication as in Europe. Ask for BOOSEY & COMPANY'S publications, and, if there is any difficulty in obtaining them, please address direct to

READ
THIS

The summer time is the best time in the year to examine our line of pianos.

There is less bustle and activity than in the fall, you have more leisure to look, ask questions, and get familiar with various makers, try each, and make your selections.

Our magnificent warerooms are cool, spacious, well lighted, and a restful place to spend an idle hour inspecting and playing our pianos.

Our line was never so varied and so complete as at present. Every grade and style is on exhibition, headed by the Tone Monarch, the Peerless, Unapproached Steinway, including Mason & Hamlin, Hardman, Gabler, Jewett, Woodbury, Shoninger, Standard, and the Steinertone.

If you do not care to purchase and pay all at once, make your choice, pay a small sum to insure its delivery, then a little at a time until paid for, thus enjoying its use while paying for the piano. This is our Easy Payment System, and is fair and just to all.

While you are inspecting our line of Pianos, don't fail to ask the salesman to show you the Musical Wonder of the Century, the unique **Pianola**, the "instrument that plays an instrument."

With a choice, well-selected assortment of the wonderful perforated paper rolls and a **Pianola**, your house is well equipped to supply the music for the family without having of necessity a musician among them.

Tastes in music widely differ: one prefers classical and thinks all else rubbish, another leans to the sentimental, another the sublime, while still a fourth is only happy when listening to the latest popular ragtime air of the day.

With these rolls and the **Pianola** all can be satisfied and entertained.

Again, one's moods enter largely into one's musical desires at the moment. You are serious, a dreamy nocturne suits your fancy; patriotic, Sousa's "Stars and Stripes" appeals to you; gay, and the latest concert hall ditty coincides with your mood. All of these are at your instant command with the rolls and the **Pianola**.

And you don't have to be a piano player, either, to enjoy all these. It is not necessary to know a note of music. Just attach your **Pianola** to your piano, insert the roll of music desired, and play.

With the **Pianola** ANY KIND of a composition can be played equally well by ANY PERSON, while the music is not in any sense mechanical.

The tone and expression are all there, the wonderful little instrument supplying those essential features automatically.

The price is reasonable, \$250.00, and it need not be all paid at once. It is sold on the easy payment plan, thus giving you the pleasure of its use while paying for it.

The rolls are not expensive either; and, if you do not care to lay in a large quantity, there are literally LIBRARIES of HARMONY, where for a payment of a certain sum per year you can take selections and use them until you desire a change, when they can be substituted for another choice.

IN A MUSICAL ATMOSPHERE IS THE PLACE TO TALK PIANOS

That is why we advertise in this programme, and incidentally to talk about ourselves and our facilities for meeting your every desire in the way of pianos.

We have been selling pianos for **Forty Years**, and during that time have so satisfied our patrons that we have grown to be the **Largest Retail Piano House in the World.**

Could we have reached this proud position, had not our Pianos, Methods, and Service been of the Highest Standard?

Our lines are always complete and comprise the leaders only, in reputation, style, variety, tone, touch, quality, and price, while our system is on the characteristic Steinert scale. You wish to purchase, lease, rent, or only to look: you will be accommodated and with every courtesy.

Our stock is headed by the monarch of tone, the peerless, unapproached STEINWAY, from which standard all other pianos are gauged; while the others, Mason & Hamlin, Hardman, Gabler, Jewett, Woodbury, Shoninger, Standard, and Steinertone, all are worthy of your notice. Your inspection is requested.

**YOU
CAN
HAVE**

A POP CONCERT

**AT HOME
WITH**

A PIANOLA

The fingers of melody are the keys of a **Pianola**. Touched by a breath or shaken by a storm, according to the whim of the player and the theme of the composition, the **Pianola** will produce the masterpiece of the genius from the hands of the novice.

A **Pianola** at \$250 is almost a household necessity in these musical days.

With the accompanying rolls every phase of music, from the popular air of the day to the standard works of the old masters, can be played with all the exquisite shadings of the original by one with no previous knowledge of the piano.

If your children are inclined to be musical, you owe it to them to encourage it by purchasing a **Pianola**. Its simplicity will at once appeal to them, and its novelty be a welcome contrast to the hated drudgery of the music lesson. They will eagerly accept it as "playing" and not "working," and their lesson will then become a joy and not a task.

Their lesson can take the form of a composition from a high classic, which the **Pianola** will play for them accurately and repeatedly until the notes and tempo are fixed in their mind, when the **Pianola** can be disconnected from the piano and the music played directly from the keys.

Just step into our warerooms and have the **Pianola** played to you and its beauties explained, or, better, play it yourself.

You will be surprised at your first attempt to produce your favorite air.

There are many imitations of the PIANOLA, but they all fall far short of the mark.

has more to commend it to your favorable consideration than any other natural spring water in the world, principally because it is STRONGER IN LITHIA. This corporation makes no claims for BALLARDVALE LITHIA WATER except such as are substantiated by the following high authority: *British Medical Journal, London Lancet, Edinburgh Medical Journal, British Medical Press and Circular, Dublin Journal of Medical Science, and New England Medical Monthly.*

We can offer a variety unsurpassed of compositions by the best composers in the English and French languages on the same date of publication as in Europe. DRY GINGER ALE

MADE FROM DISTILLED WATER UNDER PERFECT
HYGIENIC CONDITIONS

IN A MUSICAL ATMOSPHERE IS THE PLACE TO TALK PIANOS

That is why we advertise in this programme, and incidentally to talk about ourselves and our facilities for meeting your every desire in the way of pianos.

We have been selling pianos for **Forty Years**, and during that time have so satisfied our patrons that we have grown to be the **Largest Retail Piano House in the World**.

Could we have reached this proud position, had not our Pianos, Methods, and Service been of the Highest Standard?

Our lines are always complete and comprise the leaders only, in reputation, style, variety, tone, touch, quality, and price, while our system is on the characteristic Steinert scale. You wish to purchase, lease, rent, or only to look: you will be accommodated and with every courtesy.

Our stock is headed by the monarch of tone, the peerless, unapproached STEINWAY, from which standard all other pianos are gauged; while the others, Mason & Hamlin, Hardman, Gabler, Jewett, Woodbury, Shoninger, Standard, and Steinertone, all are worthy of your notice. Your inspection is requested.

YOU CAN HAVE A POP CONCERT AT HOME WITH A PIANOLA

The fingers of melody are the keys of a Pianola. Touched by a breath or shaken by a storm, according to the whim of the player and the theme of the composition, the **Pianola** will produce the masterpiece of the genius from the hands of the novice.

A **Pianola** at \$250 is almost a household necessity in these musical days.

With the accompanying rolls every phase of music, from the popular air of the day to the standard works of the old masters, can be played with all the exquisite shadings of the original by one with no previous knowledge of the piano.

If your children are inclined to be musical, you owe it to them to encourage it by purchasing a **Pianola**. Its simplicity will at once appeal to them, and its novelty be a welcome contrast to the hated drudgery of the music lesson. They will eagerly accept it as "playing" and not "working," and their lesson will then become a joy and not a task.

Their lesson can take the form of a composition from a high classic, which the **Pianola** will play for them accurately and repeatedly until the notes and tempo are fixed in their mind, when the **Pianola** can be disconnected from the piano and the music played directly from the keys.

Just step into our warerooms and have the **Pianola** played to you and its beauties explained, or, better, play it yourself.

You will be surprised at your first attempt to produce your favorite air.

There are many imitations of the PIANOLA, but they all fall far short of the mark.

OUR LIST

SHONINGER, STANDARD, AND

THE STEINERTONE.

CALL IN AND SEE THEM, HEAR THEM PLAYED, PLAY THEM YOUR-
SELF, GET OUR TERMS AND PRICES, AND YOU WILL SURELY BUY.

DID YOU EVER TRY THE PIANOLA?

With it and its wonderful rolls of perforated paper, covering every piece of music, from the highest sonata to the latest melody in ragtime, and all the wide range of music between, can be played without an instant's practice or the drudgery of learning. By its system of interchangeable rolls you can have a

"LIBRARY OF HARMONY."

You hear a popular song, an air from a grand or comic opera, a masterpiece of Paderewski or Bauer, a soul-stirring march from Sousa or an anthem from a celestial theme. Apply to the nearest agency, and it's yours, not only to **hear**, but to **play**; for with the Pianola you can play them with all the varied expressions of the original. This of itself is an additional enjoyment.

Pianos spoil oftener from standing idle than when subjected to the hardest playing. Use it then, use it with a Pianola. Everybody in the house can play it, from the child just large enough to pump the air to the grandsire softly playing to himself some long-remembered favorite air.

As a musical educator, too, the Pianola is a valuable adjunct. It instills the desire to play into those who are disinclined to master the piano, particularly the young, to whom the hated "music lesson" is a thing to be evaded whenever possible. With it the pupil can become familiar with all the shades and tones of his selection, and by repetition on the Pianola fix them in his mind. He can then attempt it on the keys, with surprising success.

Instantly connected or disconnected from the piano, small, compact, and easily moved, it takes but a small space, and even then is an ornament. Don't let your piano stand unused any longer.

BUY A PIANOLA AT \$250.

The cost is not felt, especially when you take advantage of our Easy Payment system, by which you enjoy its use while paying for it.

As an investment you will never regret the money, as it is spent for the whole family. Think it over and call upon us. Ask to see it played, play it yourself: you will be surprised and gratified at your own playing.

FACTS TALK,

DO THEY NOT? when you realize the fact that WRIGHT & TAYLOR'S May, 1902, shipments consisted of ten (10) carloads. Is this not convincing and the strongest possible proof that their

Fine Old Kentucky Taylor WHISKEY

is in great demand? This record of ten (10) carloads of their FINE OLD KENTUCKY TAYLOR WHISKEY, a solid train-load of one brand of whiskey, shipped by one concern to one market, is the largest shipment of whiskey in the history of the whiskey world, and has never been approached by any other distiller. Enough said. QUALITY COUNTS.

DID YOU EVER TRY THE PIANOLA?

With it and its wonderful rolls of perforated paper, covering every piece of music, from the highest sonata to the latest melody in ragtime, and all the wide range of music between, can be played without an instant's practice or the drudgery of learning. By its system of interchangeable rolls you can have a

"LIBRARY OF HARMONY."

You hear a popular song, an air from a grand or comic opera, a masterpiece of Paderewski or Bauer, a soul-stirring march from Sousa or an anthem from a celestial theme. Apply to the nearest agency, and it's yours, not only to **hear**, but to **play**; for with the Pianola you can play them with all the varied expressions of the original. This of itself is an additional enjoyment.

Pianos spoil oftener from standing idle than when subjected to the hardest playing. Use it then, use it with a Pianola. Everybody in the house can play it, from the child just large enough to pump the air to the grandsire softly playing to himself some long-remembered favorite air.

As a musical educator, too, the Pianola is a valuable adjunct. It instills the desire to play into those who are disinclined to master the piano, particularly the young, to whom the hated "music lesson" is a thing to be evaded whenever possible. With it the pupil can become familiar with all the shades and tones of his selection, and by repetition on the Pianola fix them in his mind. He can then attempt it on the keys, with surprising success.

Instantly connected or disconnected from the piano, small, compact, and easily moved, it takes but a small space, and even then is an ornament. Don't let your piano stand unused any longer.

BUY A PIANOLA AT \$250.

The cost is not felt, especially when you take advantage of our Easy Payment system, by which you enjoy its use while paying for it.

As an investment you will never regret the money, as it is spent for the whole family. Think it over and call upon us. Ask to see it played, play it yourself: you will be surprised and gratified at your own playing.
